### Adversarial Claim Verifier (voter 3/3)

Be SKEPTICAL. Try to REFUTE this claim. ?2/3 refutations kill it.

### Research question

RESEARCH GOAL: Produce a decision-grade shortlist of data-annotation VENDORS to build "golden set" ground-truth labels for a badminton highlights product, with a STRONG PREFERENCE for vendors based in or operating from Bangalore / India (the founder is in Bangalore and prefers local vendors for easier coordination, possible site visits, and data residency). The annotation task is TEMPORAL VIDEO SEGMENT annotation: marking the [start, end) time ranges of each "rally" in badminton match videos ? i.e. event / temporal-action labeling on video, NOT just image bounding boxes. Output is a simple per-video timestamp list (CSV of start,end). Volume: a constantly growing collection of licensed/owned match videos (no end-user uploads).

For EACH candidate vendor, verify against PRIMARY sources (the vendor's own website/docs) and clearly FLAG anything unverifiable (pricing is usually quote-only):

1. Company & location ? HQ + delivery centers; confirm Bangalore / India presence; flag if purely overseas.
2. Capability ? do they do VIDEO temporal/event annotation (timestamps/segments) or video tracking, or only static image labeling? Sports / media-video experience is a plus.
3. Pricing model ? per video-minute / per task / per annotator-hour / managed-team; any public rates; minimum engagement; willingness to run a small paid PILOT.
4. Data security & compliance ? ISO 27001, SOC 2, GDPR, and especially India's DPDP Act 2023; willingness to sign a DPA; "no training/reuse of our data"; delete-on-delivery; access controls; secure-facility / VDI options.
5. Delivery & integration ? programmatic API for submit/fetch? turnaround SLAs? can they support BOTH a fast tier (hours) and a batch tier (days)?
6. Quality process ? multi-annotator consensus, gold-standard/honeypot checks, inter-annotator-agreement (IAA) reporting, QA review layers.

Candidate vendors to investigate and VERIFY (do not assume ? confirm or correct each, and find others, especially Bangalore-local): iMerit, Playment (and whether TELUS International acquired it), Cogito Tech, Anolytics, Infolks, Learning Spiral, Indika AI, Tech Mahindra, Sama, Scale AI, Labelbox, Toloka, SuperAnnotate, Encord, CloudFactory. Also identify any Bangalore-based startups specializing in video annotation.

Also briefly cover: (a) typical market rate RANGE for temporal video annotation in India vs US/global; and (b) the AUTOMATED-annotation alternative ? could a hosted VLM (e.g. Gemini) or an open model serve as a "fast tier" oracle for surprise regression tests, and what that implies (it must be a DIFFERENT model lineage than the production tool to avoid shared-blind-spot bias).

DELIVERABLE: a ranked shortlist (favoring Bangalore/India) with a comparison table (vendor | location | video-temporal capability | pricing model | security/DPA & DPDP posture |

API/turnaround | QA process | pilot availability | verdict), plus 2?3 recommended vendors to approach for a pilot bake-off, and explicit flags on every unverifiable claim (especially pricing). Prioritize accuracy and primary-source citations over breadth.

## Claim under review

"FlexiBench is the data-annotation platform/managed-workforce arm of Indika AI (its parent company), which is an India-based enterprise AI company founded in 2021 and headquartered in Mumbai ? so India presence is confirmed, but the HQ is Mumbai, NOT Bangalore; FlexiBench is itself one of the named candidate vendors (Indika AI) under a different brand."

**\*\*Source:\*\*** <https://www.flexibench.io/services/video-annotation> (primary)

**\*\*Supporting quote:\*\*** "At Indika (our parent company), we learned early that models are only as good as the data they train on. ... It was founded in 2021 and is based in Mumbai, India."

## Checklist

1. Is the claim actually supported by the quote, or is it an overreach/misread?
2. WebSearch for contradicting evidence ? does any credible source dispute or heavily qualify this?
3. Is the source quality sufficient for the claim's strength? (extraordinary claims need primary sources)
4. Is the claim outdated? (check dates ? old claims about fast-moving fields are suspect)
5. Is this a marketing claim / press release / cherry-picked benchmark / forum speculation?

**\*\*refuted=true\*\*** if: unsupported by quote / contradicted / low-quality source for strong claim / outdated / marketing fluff.

**\*\*refuted=false\*\*** ONLY if: claim is well-supported, current, and source quality matches claim strength.

Default to refuted=true if uncertain.

Structured output only. Evidence MUST be specific.

Based on the search results, here's what I found about FlexiBench and Indika AI:

FlexiBench is a freelance platform owned by Indika AI with 70,000 registered contributors. This clarifies the relationship: Indika AI is an enterprise AI platform that handles the full AI lifecycle ? from data centralization and expert annotation to custom model training, RLHF alignment, and production deployment.

The successful introduction of FlexiBench was highlighted as a key achievement in 2023. FlexiBench is a modern multimodal annotation platform for AI model training data with quality workflows and integrated tooling.

In summary, **FlexiBench is not a separate parent company**; it's a platform/product owned by Indika AI. Indika AI is the parent company that provides enterprise AI services, and FlexiBench serves as one of their key tools for crowdsourced data annotation work.

Based on the search results, here's what I found about Indika AI:

## Company Overview

Indika AI was founded in May 2021 by Hardik Dave and Dr. Anshul Vikram Pandey and is headquartered in Mumbai, India.

## Business Focus

The company focuses on programmatic data labeling and the fine-tuning of large language models (LLMs) and foundation models, utilizing advanced technology and reinforcement learning with human feedback. More specifically, Indika AI is a data labelling company offering end-to-end exceptional quality data annotation across computer vision, natural language processing and content services.

## Recent Development

In August 2025, Indika AI was acquired by PanScience Innovations (PSI), an AI and deep-tech venture studio, to combine PSI's research capabilities with Indika AI's experience in large-scale data projects.

## Team and Operations

The company's freelance platform, Flexibench, has 70,000 registered contributors, 5%-10% of whom are working actively at any given time.

## Indika AI Overview

**\*\*What is Indika AI?\*\***

According to the webpage, Indika AI is "an enterprise AI platform that centralizes data, trains domain-specific models, and aligns AI through RLHF ? serving 10 industry verticals with 100+ applications deployed."

**\*\*Headquarters Location & Founding Year\*\***

The webpage does not specify the city or country where Indika AI is headquartered, nor does it mention when the company was founded.

**\*\*Data Annotation/AI Training Data Company?\*\***

Yes, Indika AI operates as a data annotation and AI training company. The site highlights "60,000+ expert annotators" and offers services including "high-quality data labeling, RLHF feedback, and domain-specific AI alignment at scale."

**\*\*FlexiBench Reference\*\***

The webpage does mention FlexiBench as a linked resource under the "60K+ Expert Annotators" statistic (linked to <https://flexibench.io/>), suggesting it may be an associated product or platform, though the content does not explicitly describe what FlexiBench is.

Based on the search results, here's what I found about FlexiBench, its relationship to Indika AI, and AI training:

### FlexiBench and Indika AI

FlexiBench is owned by Indika AI as its parent company. FlexiBench is a modern multimodal annotation platform for AI model training data with quality workflows, AI-assisted labeling, and enterprise-grade governance.

### FlexiBench's Role in AI Training Data

FlexiBench provides high-quality, bias-free data that helps AI learn and evolve through data annotation to RLHF and model optimization. With a global team of 60,000+ specialists, FlexiBench crafts high-quality training datasets that fuel AGI, foundation models, and machine learning.

### Indika AI as the Parent Company

Indika AI is an enterprise AI platform that handles the full AI lifecycle ? from data centralization and expert annotation to custom model training, RLHF alignment, and production deployment. Indika AI is an enterprise AI platform company with 60,000+ expert annotators, 100+ pre-built applications, and deployments across 10 industry verticals.

Note: The search results indicate that FlexiBench is a brand/subsidiary of Indika AI rather than an "arm subsidiary" in the traditional sense?it appears to be a product brand owned and operated by the parent company for delivering data annotation and AI training services.

Structured output provided successfully

#### 21. assistant (2026-05-30T08:44:41.457Z)

The verification is complete. I successfully called StructuredOutput with my finding.

Summary of my adversarial verification:

The claim survives. I attempted to refute it but found multiple independent sources confirming every component:

1. **\*\*HQ = Mumbai, NOT Bangalore\*\*** (the load-bearing corrective for the Bangalore-preference research goal): Confirmed by inc42.com ("Based Out Of Mumbai"), thecompanycheck.com (CIN U72900MH2021PTC361133 ? note "MH" = Maharashtra), YourStory, F6S, and Tracxn. All agree on Mumbai.
  2. **\*\*Founded 2021\*\***: The CIN itself encodes incorporation year 2021 (...MH\*\*2021\*\*PTC...); search aggregation across Tracxn/Inc42/YourStory confirms "founded in May 2021 by Hardik Dave and Dr. Anshul Vikram Pandey."
  3. **\*\*FlexiBench is Indika AI's annotation arm/brand\*\***: indikaai.com links its "60K+ Expert Annotators" stat directly to flexibench.io; the flexibench.io/about page confirms verbatim "At Indika (our parent company), we learned early that models are only as good as the data they train on."
- One material new fact surfaced that the parent research should note: **\*\*Indika AI was acquired by PanScience Innovations (PSI) in August 2025\*\***, so the current ownership chain is FlexiBench ? Indika AI ? PanScience Innovations.

Caveat (non-refuting): the exact cited URL (`flexibench.io/services/video-annotation`) returned 404 via WebFetch and is JS-gated, so I could not re-fetch the verbatim quote from that specific page ? but the `/about` page yielded the identical "parent company" quote, and every factual component is independently corroborated off-site. **\*\*refuted = false, confidence = high.\*\***
