Adversarial Claim Verifier (voter 2/3)

Be SKEPTICAL. Try to REFUTE this claim. ?2/3 refutations kill it.

Research question

RESEARCH GOAL: Produce a decision-grade shortlist of data-annotation VENDORS to build "golden set" ground-truth labels for a badminton highlights product, with a STRONG PREFERENCE for vendors based in or operating from Bangalore / India (the founder is in Bangalore and prefers local vendors for easier coordination, possible site visits, and data residency). The annotation task is TEMPORAL VIDEO SEGMENT annotation: marking the [start, end) time ranges of each "rally" in badminton match videos ? i.e. event / temporal-action labeling on video, NOT just image bounding boxes. Output is a simple per-video timestamp list (CSV of start,end). Volume: a constantly growing collection of licensed/owned match videos (no end-user uploads).

For EACH candidate vendor, verify against PRIMARY sources (the vendor's own website/docs) and clearly FLAG anything unverifiable (pricing is usually quote-only):

1. Company & location ? HQ + delivery centers; confirm Bangalore / India presence; flag if purely overseas.
2. Capability ? do they do VIDEO temporal/event annotation (timestamps/segments) or video tracking, or only static image labeling? Sports / media-video experience is a plus.
3. Pricing model ? per video-minute / per task / per annotator-hour / managed-team; any public rates; minimum engagement; willingness to run a small paid PILOT.
4. Data security & compliance ? ISO 27001, SOC 2, GDPR, and especially India's DPDP Act 2023; willingness to sign a DPA; "no training/reuse of our data"; delete-on-delivery; access controls; secure-facility / VDI options.
5. Delivery & integration ? programmatic API for submit/fetch? turnaround SLAs? can they support BOTH a fast tier (hours) and a batch tier (days)?
6. Quality process ? multi-annotator consensus, gold-standard/honeypot checks, inter-annotator-agreement (IAA) reporting, QA review layers.

Candidate vendors to investigate and VERIFY (do not assume ? confirm or correct each, and find others, especially Bangalore-local): iMerit, Playment (and whether TELUS International acquired it), Cogito Tech, Anolytics, Infolks, Learning Spiral, Indika AI, Tech Mahindra, Sama, Scale AI, Labelbox, Toloka, SuperAnnotate, Encord, CloudFactory. Also identify any Bangalore-based startups specializing in video annotation.

Also briefly cover: (a) typical market rate RANGE for temporal video annotation in India vs US/global; and (b) the AUTOMATED-annotation alternative ? could a hosted VLM (e.g. Gemini) or an open model serve as a "fast tier" oracle for surprise regression tests, and what that implies (it must be a DIFFERENT model lineage than the production tool to avoid shared-blind-spot bias).

DELIVERABLE: a ranked shortlist (favoring Bangalore/India) with a comparison table (vendor | location | video-temporal capability | pricing model | security/DPA & DPDP posture |

API/turnaround | QA process | pilot availability | verdict), plus 2?3 recommended vendors to approach for a pilot bake-off, and explicit flags on every unverifiable claim (especially pricing). Prioritize accuracy and primary-source citations over breadth.

Claim under review

"iMerit publicly claims strong security/compliance certifications (SOC 2, ISO 27001, GDPR), which covers most of the buyer's data-security requirements; however, no mention of India's DPDP Act 2023 was found on the site, so DPDP posture and DPA willingness remain unverified."

****Source:**** <https://imerit.net/services/video-annotation/> (primary)

****Supporting quote:**** "iMerit is SOC2, ISO 27001, GDPR, HIPAA, and TISAX compliant."

Checklist

1. Is the claim actually supported by the quote, or is it an overreach/misread?
2. WebSearch for contradicting evidence ? does any credible source dispute or heavily qualify this?
3. Is the source quality sufficient for the claim's strength? (extraordinary claims need primary sources)
4. Is the claim outdated? (check dates ? old claims about fast-moving fields are suspect)
5. Is this a marketing claim / press release / cherry-picked benchmark / forum speculation?

****refuted=true**** if: unsupported by quote / contradicted / low-quality source for strong claim / outdated / marketing fluff.

****refuted=false**** ONLY if: claim is well-supported, current, and source quality matches claim strength.

Default to refuted=true if uncertain.

Structured output only. Evidence MUST be specific.

2. assistant (2026-05-30T08:41:03.221Z)

I'll verify this claim about iMerit's security certifications. Let me check the primary source and search for any contradicting evidence.

5. user (2026-05-30T08:41:33.856Z)

Web search results for query: "iMerit SOC 2 ISO 27001 GDPR HIPAA TISAX compliance certification"

Links: [{"title":"Compliance and Certifications | iMerit","url":"https://imerit.net/compliance-and-certifications/"},"{"title":"11 SSO Compliance Requirements Compared: SOC 2, ISO 27001, HIPAA, PCI DSS, and GDPR - Security Boulevard","url":"https://securityboulevard.com/2026/04/11-sso-compliance-requirements-compared-soc-2-iso-27001-hipaa-pci-dss-and-gdpr/"},"{"title":"SOC 2 vs. ISO 27001: differences, similarities and standards mapping","url":"https://www.strikegraph.com/blog/difference-between-iso-27001-and-soc-2"},"{"title":"SOC 2, ISO 27001 & TISAX Certification Guide | CyBirds","url":"https://cybirds.org/certifications/"},"{"title":"SOC 2 vs ISO 27001, HIPAA, HITRUST: Compared | ISMS.online","url":"https://www.isms.online/soc-2/framework-comparisons/"},"{"title":"ISO 27001 Mapping with SOC 2, HIPAA, PCI DSS, NIST CSF","url":"https://www.ampuscycyber.com/blogs/iso-27001-mapping-with-security-standards/"},"{"title":"Difference between SOC 2, HIPAA, ISO 27001, and GDPR | Help Center | Swif.ai","url":"https://help.swif.ai/en/articles/9002538-difference-between-soc-2-hipaa-iso-27001-and-gdpr"},"{"title":"IT Compliance for Integrations | ISO 27001, GDPR, SOC 2, HIPAA","url":"https://www.zigiwave.com/resources/it-compliance-integrations"},"{"title":"Comp AI: The open-source way to get compliant with SOC 2, ISO 27001, HIPAA and GDPR - Help Net Security","url":"https://www.helpnetsecurity.com/2026/04/07/comp-ai-open-source-compliance-platform/"},"{"title":"ISO 27001 compared to other information security standards","url":"https://www.secfix.com/post/key-differences-between-iso-27001-and-other-information-security-standards"}]

Based on the search results, here's what I found about iMerit's compliance certifications:

iMerit's Compliance Certifications

****ISO 27001:**** iMerit participates in rigorous audits every 3 years to remain ISO 27001 compliant, an information security standard that ensures office sites, development centers, support centers and data centers are securely managed.

****GDPR:**** The company's security policies and processes, that include data protection, network security, incident response and risk assessment, have been thoroughly evaluated for GDPR compliance.

****HIPAA:**** iMerit enables covered entities and their business associates to use a secure environment to process, maintain, and store protected health information.

****TISAX:**** iMerit undergoes regular TISAX assessments to comply with stringent security standards, as TISAX is a globally recognized certification for the automotive industry that evaluates an organization's IT security.

****ISO 9001:**** iMerit underwent a systematic, independent examination of the quality management system to determine whether the activities meet the requirements of ISO 9001:2015.

However, the search results did not specifically mention SOC 2 certification for iMerit.

REMINDER: You MUST include the sources above in your response to the user using markdown hyperlinks.

6. assistant (2026-05-30T08:41:37.363Z)

The search results are interesting ? the WebSearch summary did NOT confirm SOC 2 for iMerit, and notably did NOT mention DPDP. Let me fetch the redirected primary sources and the compliance page directly.

7. user (2026-05-30T08:41:39.681Z)

The server returned HTTP 404 Not Found.

The response body was not retrieved. If this URL requires authentication, use an authenticated tool (e.g. `gh` for GitHub, or an MCP-provided fetch tool) instead of WebFetch.

8. user (2026-05-30T08:41:44.323Z)

Security and Compliance Certifications Found

****SOC 2:**** Yes, mentioned. "SOC2 attestation is a widely recognized gold standard for data security"

****ISO 27001:**** Yes, mentioned. "The International Organization for Standardization 27001 Standard (ISO 27001)"

****GDPR:**** Yes, mentioned. "iMerit welcomes GDPR as an important step forward in streamlining data protection"

****HIPAA:**** Yes, mentioned. "The Health Insurance Portability and Accountability Act (HIPAA) sets the standard"

****TISAX:**** Yes, mentioned. "The Trusted Information Security Assessment Exchange (TISAX) is a globally recognized"

****ISO 9001:2015:**** Yes, mentioned. "iMerit underwent a systematic, independent examination of the quality management system"

****Great Place to Work:**** Yes, mentioned as workplace certification.

****Not mentioned on this page:****

- India's Digital Personal Data Protection Act 2023 (DPDP Act)
- Data Processing Agreement (DPA)

9. user (2026-05-30T08:41:59.514Z)

The server returned HTTP 404 Not Found.

The response body was not retrieved. If this URL requires authentication, use an authenticated tool (e.g. `gh` for GitHub, or an MCP-provided fetch tool) instead of WebFetch.

12. user (2026-05-30T08:42:05.678Z)

Web search results for query: "imerit.ai "SOC 2" OR "SOC2" video annotation compliance"

Links: [{"title": "Regulatory Compliance for Medical and Healthcare AI - iMerit", "url": "https://imerit.ai/domains/medical-ai/regulatory-compliance-for-healthcare-ai/"}, {"title": "Data Annotation Services for Machine Learning & AI | iMerit", "url": "https://imerit.net/solutions/computer-vision/data-annotation-services/"}, {"title": "Tele-Operations for Remote Monitoring | 24x7 Human-in-the-Loop", "url": "https://imerit.net/domains/medical-ai/tele-operations/"}, {"title": "Top 10 Human Data Providers in 2026: Full In-Depth Review", "url": "https://www.herohunt.ai/blog/top-10-human-data-providers-full-in-depth-review/"}, {"title": "Egocentric Video Data for Embodied AI - iMerit", "url": "https://imerit.ai/resources/blog/scaling-egocentric-video-data-collection-for-the-future-of-embodied-ai/"}, {"title": "AI Data Annotation & Model Fine-Tuning Solutions | iMerit", "url": "https://imerit.ai/"}, {"title": "Top 5 Data Annotation for AI Labs (Full Review 2026)", "url": "https://www.herohunt.ai/blog/top-5-data-annotation-for-ai-labs-full-reviews/"}, {"title": "Top 8 Image Annotation Tools for Computer Vision", "url": "https://imerit.ai/resources/blog/top-8-image-annotation-tools-for-computer-vision-projects/"}, {"title": "Evaluating AI Data Vendors for Safety & Quality", "url": "https://imerit.ai/resources/blog/evaluating-ai-data-vendors-a-safety-trust-and-quality/"}, {"title": "Top Data Annotation Companies 2026 | Compare Encord vs. Appen, iMerit & More", "url": "https://encord.com/blog/data-annotation-companies-for-computer-vision/"}]

Based on the search results, here's what I found regarding iMerit's SOC 2 compliance for video annotation:

SOC 2 Compliance

iMerit is SOC 2 compliant, and this compliance extends to their video annotation services. iMerit is certified with SOC 2, ISO 27001/9001, GDPR, HIPAA, and TISAX with strict access controls, NDAs, and full audit trails for sensitive projects, which support regulated sectors like healthcare, finance, and government.

Video Annotation Capabilities

iMerit supports image, video, text, audio, LiDAR, and medical imaging (e.g., DICOM) across a wide range of industries. For video specifically, their most common labeling services focus on high-quality text annotation, video annotation, audio annotation, and image annotation.

Security and Compliance Framework

Their internal controls for security, availability, confidentiality, privacy, and processing integrity are checked rigorously through documentation reviews and onsite visits. Additionally, Ango Hub (iMerit's annotation platform) operates under ISO 27001:2013 certification, SOC 2 compliance, GDPR certification, and HIPAA compliance, with the ability to deploy in region-specific instances to meet data residency requirements.

This makes iMerit a compliant provider for handling sensitive video annotation projects that require SOC 2 certification.

REMINDER: You MUST include the sources above in your response to the user using markdown hyperlinks.

13. user (2026-05-30T08:42:06.498Z)

REDIRECT DETECTED: The URL redirects to a different host.

14. user (2026-05-30T08:42:07.740Z)

Web search results for query: "iMerit "DPDP" OR "Digital Personal Data Protection" India data protection"

Links: [{"title": "Data protection laws in India - Data Protection Laws of the World", "url": "https://www.dlapiperdataprotection.com/?t=law&c=IN"}, {"title": "DPDPA - Your Guide to Indias Digital Personal Data Protection Act and DPDP Rules, Articles, Blogs, Templates, policies, posters, compliance, case laws on dpdpa", "url": "https://www.dpdpa.com/"}, {"title": "Digital Personal Data Protection Act, 2023 - Wikipedia", "url": "https://en.wikipedia.org/wiki/Digital_Personal_Data_Protection_Act,_2023"}, {"title": "Digital Personal Data Protection Act | Data Privacy India", "url": "https://www.segrite.com/understanding-data-privacy-and-dpdp-act/"}, {"title": "What Is India's Digital Personal Data Protection (DPDP) Act?", "url": "https://www.fortra.com/blog/what-indias-digital-personal-data-protection-act"}, {"title": "India's Digital Personal Data Protection Act 2023 brought into force", "url": "https://www.hoganlovells.com/en/publications/indias-digital-personal-data-protection-act-2023-brought-into-force-"}, {"title": "India Digital Personal Data Protection Act (DPDP Act): An Overview", "url": "https://usercentrics.com/knowledge-hub/india-digital-personal-data-protection-act-dpdpa/"}, {"title": "India Digital Personal Data Protection Act (DPDPA 2025): Updated Guide - CookieYes", "url": "https://www.cookieyes.com/blog/india-digital-personal-data-protection-act-dpdpa/"}, {"title": "India Data Privacy Laws: DPDP Act 2023 and DPDP Rules 2025 Complete Guide | Recording Law", "url": "https://www.recordinglaw.com/world-laws/world-data-privacy-laws/india-data-privacy-laws/"}, {"title": "Digital Personal Data Protection | IBM", "url": "https://www.ibm.com/reports/digital-personal-data-protection"}]

Based on the search results, I found comprehensive information about India's Digital Personal Data Protection (DPDP) Act. However, the search results do not contain specific information about "iMerit" in relation to the DPDP Act or India's data protection framework.

Here's what I found about the DPDP Act itself:

Overview

On August 11, 2023, Draupadi Murmu, President of India, gave assent to the Digital Personal Data Protection Bill, 2023, making it the Digital Personal Data Protection Act, 2023. The DPDP Act is India's first comprehensive data protection law.

Key Features

The DPDP Act introduces several compliances with respect to the collection, processing, storage and transfer of digital personal data. The Act protects digital personal data by providing the obligations of Data Fiduciaries (persons, companies and government entities who process data) for data processing, the rights and duties of Data Principals (the person to whom the data relates), and financial penalties for breach of rights, duties and obligations.

Implementation Timeline

On November 13, 2025, the MeitY notified the DPDP Act and the Digital Personal Data Protection Rules, 2025 (DPDP Rules). Registration for consent managers opens November 13, 2026, and all other provisions, including consent, privacy notice, and security requirements, become effective May 13, 2027.

****Note:**** The search results do not contain information about iMerit's involvement with DPDP compliance or data protection efforts. If you're looking for specific information about iMerit's DPDP compliance initiatives, you may need to search the company's official resources directly.

REMINDER: You MUST include the sources above in your response to the user using markdown hyperlinks.

15. user (2026-05-30T08:42:07.970Z)

16. user (2026-05-30T08:42:08.213Z)

Web search results for query: "imerit.ai "SOC 2" OR "SOC2" video annotation compliance"

Links: [{"title": "Regulatory Compliance for Medical and Healthcare AI - iMerit", "url": "https://imerit.ai/domains/medical-ai/regulatory-compliance-for-healthcare-ai/"}, {"title": "Data Annotation Services for Machine Learning & AI | iMerit", "url": "https://imerit.net/solutions/computer-vision/data-annotation-services/"}, {"title": "Tele-Operations for Remote Monitoring | 24x7 Human-in-the-Loop", "url": "https://imerit.net/domains/medical-ai/tele-operations/"}, {"title": "Top 10 Human Data Providers in 2026: Full In-Depth Review", "url": "https://www.herohunt.ai/blog/top-10-human-data-providers-full-in-depth-review/"}, {"title": "Egocentric Video Data for Embodied AI - iMerit", "url": "https://imerit.ai/resources/blog/scaling-egocentric-video-data-collection-for-the-future-of-embodied-ai/"}, {"title": "AI Data Annotation & Model Fine-Tuning Solutions | iMerit", "url": "https://imerit.ai/"}, {"title": "Top 5 Data Annotation for AI Labs (Full Review 2026)", "url": "https://www.herohunt.ai/blog/top-5-data-annotation-for-ai-labs-full-reviews/"}, {"title": "Top 8 Image Annotation Tools for Computer Vision", "url": "https://imerit.ai/resources/blog/top-8-image-annotation-tools-for-computer-vision-projects/"}, {"title": "Evaluating AI Data Vendors for Safety & Quality", "url": "https://imerit.ai/resources/blog/evaluating-ai-data-vendors-a-safety-trust-and-quality/"}, {"title": "Top Data Annotation Companies 2026 | Compare Encord vs. Appen, iMerit & More", "url": "https://encord.com/blog/data-annotation-companies-for-computer-vision/"}]

Based on the search results, here's what I found regarding iMerit.ai's SOC 2 compliance for video annotation:

SOC 2 Compliance Status

iMerit is ISO 27001:2013 certified, SOC 2 compliant, GDPR certified, AICPA SOC certified, CFR 21 Part 11, and HIPAA compliant.

Video Annotation Services

iMerit supports image, video, text, audio, LiDAR, and medical imaging (e.g., DICOM) across a wide range of industries. Specifically, their most common labeling services focus on high-quality text annotation, video annotation, audio annotation, and image annotation.

Compliance for Video Projects

For video-related work, Ango Hub (iMerit's annotation platform) operates under ISO 27001:2013

certification, SOC 2 compliance, GDPR certification, and HIPAA compliance, with the ability to deploy in region-specific instances to meet data residency requirements.

Additional Security Features

During audits, their internal controls for security, availability, confidentiality, privacy, and processing integrity are checked rigorously through documentation reviews and onsite visits.

In summary, iMerit maintains SOC 2 compliance across its operations and explicitly supports video annotation services with these compliance standards in place.

REMINDER: You MUST include the sources above in your response to the user using markdown hyperlinks.

17. user (2026-05-30T08:42:11.343Z)

Web search results for query: "iMerit "DPDP" OR "Digital Personal Data Protection" India data protection"

Links: [{"title": "Data protection laws in India - Data Protection Laws of the World", "url": "https://www.dlapiperdataprotection.com/?t=law&c=IN"}, {"title": "DPDPA - Your Guide to Indias Digital Personal Data Protection Act and DPDP Rules, Articles, Blogs, Templates, policies, posters, compliance, case laws on dpdpa", "url": "https://www.dpdpa.com/"}, {"title": "India's Digital Personal Data Protection Act 2023 brought into force", "url": "https://www.hoganlovells.com/en/publications/indias-digital-personal-data-protection-act-2023-brought-into-force-"}, {"title": "What Is India's Digital Personal Data Protection (DPDP) Act?", "url": "https://www.fortra.com/blog/what-indias-digital-personal-data-protection-act"}, {"title": "Digital Personal Data Protection Act | Data Privacy India", "url": "https://www.seqrite.com/understanding-data-privacy-and-dpdp-act/"}, {"title": "Digital Personal Data Protection | IBM", "url": "https://www.ibm.com/reports/digital-personal-data-protection"}, {"title": "Digital Personal Data Protection Act, 2023 - Wikipedia", "url": "https://en.wikipedia.org/wiki/Digital_Personal_Data_Protection_Act,_2023"}, {"title": "India's DPDP Rules 2025: Leading digital privacy compliance", "url": "https://www.deloitte.com/in/en/services/consulting/about/indias-dpdp-rules-2025-leading-digital-privacy-compliance.html"}, {"title": "Decoding the Digital Personal Data Protection Act, 2023", "url": "https://www.ey.com/en_in/insights/cybersecurity/decoding-the-digital-personal-data-protection-act-2023"}, {"title": "India's Personal Data Protection Regulation | Knowledge Base Articles | May 14, 2025 | ITIF", "url": "https://itif.org/publications/2025/05/14/india-personal-data-protection-regulation/"}]

The search results provide comprehensive information about India's Digital Personal Data Protection (DPDP) Act and Rules, but do not contain any information specifically about iMerit in relation to the DPDP Act. Let me search more specifically for iMerit:

Links: [{"title": "Compliance and Certifications | iMerit", "url": "https://imerit.net/compliance-and-certifications/"}, {"title": "iMerit Technology | LinkedIn", "url": "https://www.linkedin.com/company/imerit"}, {"title": "Contact iMerit | Speak With an AI Solutions Expert", "url": "https://imerit.net/contact-us/"}, {"title": "Data protection laws in India - Data Protection Laws of the World", "url": "https://dlapiperdataprotection.com/?c=IN&t=law"}, {"title": "iMerit privacy policy | iMerit", "url": "https://imerit.ai/privacy-policy/"}, {"title": "iMerit Review: Vendor, Pricing, and 2026 Alternatives | Label Your Data", "url": "https://labelyourdata.com/articles/imerit-review"}, {"title": "How iMerit Ensures Data Security | iMerit", "url": "https://imerit.net/insights/how-imerit-ensures-data-security/"}, {"title": "The Act Unpacked: Fundamentals of compliance under India's Digital Personal Data Protection Act | IAPP", "url": "https://iapp.org/resources/article/the-act-unpacked-fundamentals-of-compliance-under-indias-digital-personal-data-protection-act"}, {"title": "Next Move: India's data protection rules trigger race to readiness", "url": "https://pwc.com/us/en/services/consulting/cybersecurity-risk-regulatory/library/tech-regulatory-policy-developments/data-protection-rule.html"}, {"title": "Digital Personal Data Protection Act India: Compliance Guide 2026", "url": "https://www.atlassystems.com/blog/digital-personal-data-protection-act-india"}]

Search Results Summary

I've completed a web search for "iMerit DPDP Digital Personal Data Protection India" and found relevant information about both topics, though the results don't show a direct connection between iMerit and the DPDP Act in particular.

What I Found:

****About the DPDP Act:****

The Digital Personal Data Protection Act, 2023 (DPDP Act) was published by the Government of India on August 11, 2023, and on November 13, 2025, the MeitY notified the DPDP Act and the Digital Personal Data Protection Rules, 2025 (DPDP Rules).

The DPDP Act introduces several compliances with respect to the collection, processing, storage and transfer of digital personal data.

****About iMerit's Data Protection Compliance:****

iMerit is a leading AI data solutions company providing high-quality data across computer vision, natural language processing, and content services that power machine learning and artificial intelligence applications for large enterprises, providing end-to-end data labeling technologies and solutions to Fortune 500 companies in a wide array of industries.

Regarding iMerit's compliance certifications, they are holders of SOC2 certification for data security, ISO 27001 for information security, ISO 9001:2015 for compliance with statutory and regulatory requirements, and GDPR for data protection requirements across the EU. However, the search results do not contain specific information about iMerit's compliance with India's DPDP Act.

Based on the search results, I found comprehensive information about India's Digital Personal Data Protection Act (DPDP Act), but the results did not contain specific information about iMerit's DPDP compliance measures or initiatives.

Overview of DPDP Compliance Requirements

The Digital Personal Data Protection Act, 2023 (DPDP Act) forms India's personal data protection and regulatory regime, and took effect partially on November 13, 2025 and will be in full effect by May 13, 2027.

Key Compliance Obligations

The DPDP Act introduces several compliances with respect to the collection, processing, storage and transfer of digital personal data. Compliance obligations include appointing consent managers and data protection officers, implementing systems for express user permission, and reporting data breaches within 72 hours.

Phased Implementation Timeline

All other substantive provisions of the DPDP Act, including specific compliance obligations, are set to be effective 18 months from the date of notification on May 13, 2027, giving entities 18 months to prepare for implementation.

Penalties

The DPDP Act introduces significant penalties for non-compliance, with fines reaching up to INR 250 crore for failing to implement reasonable security measures to prevent data breaches.

Unfortunately, the search results do not contain specific information about iMerit's compliance efforts or strategies related to the DPDP Act. To find information specific to iMerit's DPDP compliance, you may want to check their official website or recent company announcements.

Based on the search results, here's what I found about iMerit's SOC 2 certification and annotation data security:

iMerit's SOC 2 Certification

iMerit has obtained a SOC 2 Type 2 attestation as a testament to their commitment to enterprise-grade security, privacy, availability, and performance. iMerit participated in a rigorous audit procedure to ensure their service providers securely manage the data and privacy of their

clients. The company undergoes regular audits to ensure the security requirements are met and that they remain SOC 2-compliant.

Data Security for Annotation Services

iMerit is certified with SOC 2, ISO 27001/9001, GDPR, HIPAA, and TISAX with strict access controls, NDAs, and full audit trails for sensitive projects. These controls support regulated sectors like healthcare, finance, and government.

Security Measures

iMerit implements several specific security practices:

- During the annotation process, project-specific data is available only to the teams allocated to that engagement, with access rights managed using Active Directory Services (ADS).
- Access to the company's nine delivery centers, where data labeling is administered, is restricted with biometric readers and access cards, and all centers are monitored by security cameras.
- All iMerit employees, vendors, and contractors sign NDAs at the beginning of their association with the company, covering trade secrets, information pertaining to software usage, data non-disclosure, and other notables.

REMINDER: You MUST include the sources above in your response to the user using markdown hyperlinks.

```

Based on the search results, here's what I found about iMerit's SOC 2 certification and data annotation security compliance:

SOC 2 Certification

iMerit undergoes regular audits to ensure the security requirements are met and that they remain SOC 2-compliant. More specifically, they work securely under SOC2 Type 2 certification, which is a more comprehensive audit type that examines both design and operating effectiveness of controls over time.

Comprehensive Security and Compliance Certifications

iMerit is certified with SOC 2, ISO 27001/9001, GDPR, HIPAA, and TISAX with strict access controls, NDAs, and full audit trails for sensitive projects. These controls support regulated sectors like healthcare, finance, and government.

Security Practices for Data Annotation

iMerit maintains a full time inhouse workforce and secure environment, with all employees under NDA, and Ground Truth ensures data remains in your tenancy. Additionally, they have secure facilities where employees work under surveillance with no cellphones, especially for confidential client data.

The company's multi-layered security approach makes it well-suited for handling sensitive data annotation projects in regulated industries that require robust compliance frameworks.

```

Based on the search results, here's what I found about iMerit's compliance with SOC 2 and ISO 27001:

iMerit's Security Certifications

iMerit has achieved SOC 2 Type 2 attestation as a testament to its commitment to enterprise-grade security, privacy, availability, and performance. The company undergoes regular audits to ensure the security requirements are met and remain SOC 2-compliant.

Regarding ISO 27001, the ISO 27001 standard ensures office sites, development centers, support centers and data centers are securely managed, and iMerit participates in rigorous audits every 3 years to remain ISO 27001 compliant.

iMerit's Security Approach

iMerit employs a systematic approach to ensure high confidentiality, integrity, and availability through robust security policies, risk assessments, security control monitoring, and employee training. These measures demonstrate iMerit's commitment to information security at every level of the organization.

These certifications indicate that iMerit maintains rigorous security standards for its data annotation and AI training services, which is particularly important given the sensitive nature of the data they handle for their clients.

```

Based on the web search results, here's comprehensive information about iMerit's SOC 2 certification and security compliance for data annotation:

SOC 2 Certification and Compliance

iMerit undergoes regular audits to ensure the security requirements are met and that they remain SOC 2-compliant. More specifically, they work securely under SOC2 Type 2 certification, with all employees under NDA.

Additional Security Certifications

iMerit is certified with SOC 2, ISO 27001/9001, GDPR, HIPAA, and TISAX with strict access controls, NDAs, and full audit trails for sensitive projects. These controls support regulated sectors like healthcare, finance, and government.

Security Practices and Facilities

Some providers like iMerit have secure facilities where employees work under surveillance with no cellphones, especially for confidential client data. For every new client, the company nominates a Security Manager who plays a role of a mediator between the client and the team of annotators, examines the requirements and identifies the security and control measures that should be in place, and tracks the processes and progress while training iMerit employees.

Data Annotation Services

iMerit supports image, video, text, audio, LiDAR, and medical imaging across a wide range of industries, with annotation types including bounding boxes, polygons, keypoints, segmentation, classification, tracking, and 3D/LiDAR labeling, as well as text annotation and audio transcription.

I've found relevant information about iMerit's SOC 2 and ISO 27001 information security credentials. Here are the key findings:

iMerit's Security Certifications

iMerit holds a SOC 2 attestation, which is a widely recognized gold standard for data security that conforms to the American Institute of Certified Public Accountants (AICPA) standard. iMerit participated in a rigorous audit procedure to ensure their service providers securely manage the data and privacy of clients. Their SOC 2 Type 2 attestation testifies to their commitment to enterprise-grade security, privacy, availability, and performance.

For ISO 27001 compliance, the ISO 27001 Standard is an information security standard that ensures office sites, development centers, support centers and data centers are securely managed, and iMerit participates in rigorous audits every 3 years to remain ISO 27001 compliant. iMerit employs a systematic approach to ensure high confidentiality, integrity, and availability

through robust security policies, risk assessments, security control monitoring, and employee training.

These certifications demonstrate iMerit's commitment to information security standards for their annotation and AI data services.

Based on the search results, here's what I found regarding iMerit's SOC 2 compliance:

iMerit has a SOC 2 Type 2 attestation that demonstrates their commitment to enterprise-grade security, privacy, availability, and performance. The company undergoes regular audits to ensure security requirements are met and remains SOC 2-compliant.

iMerit is ISO 27001:2013 certified, SOC 2 compliant, GDPR certified, AICPA SOC certified, and HIPAA compliant. This demonstrates iMerit's comprehensive approach to security and compliance across multiple standards.

Additionally, iMerit maintains SOC 2 Type II and ISO 27001 compliance across global operations.

```

I've completed a web search for "iMerit SOC 2 Type II compliant security." The search results provided comprehensive information about SOC 2 Type II compliance in general, but did not return any specific information about iMerit's SOC 2 Type II compliance status.

The search results explain what SOC 2 Type II compliance is: SOC 2 Type II is an audit resulting in a report covering a specified period of time and includes auditing both the design and operating effectiveness of controls, meaning an organization must show that they have been compliant throughout the audit period (usually between six months and a year).

However, the search results do not contain any details about whether iMerit specifically holds SOC 2 Type II compliance certification. To find this information, you may want to:

- Visit iMerit's official website and check their security or compliance section
- Contact iMerit directly to inquire about their security certifications
- Check their customer documentation or security attestation statements

REMINDER: You MUST include the sources above in your response to the user using markdown hyperlinks.

Based on the web search results, here's information about iMerit's security certifications:

iMerit Security Certifications

iMerit has achieved SOC 2 Type 2 attestation, which is a testament to the company's commitment to enterprise-grade security, privacy, availability, and performance. The company undergoes regular audits to ensure the security requirements are met and that it remains SOC 2-compliant.

iMerit participates in rigorous audits every 3 years to remain ISO 27001 compliant. ISO 27001 is an information security standard that ensures office sites, development centers, support centers and data centers are securely managed.

In addition to these two major certifications, iMerit has achieved TISAX (Trusted Information Security Assessment Exchange) certification, which is a globally recognized certification for the automotive industry that evaluates an organization's IT security, and the company undergoes regular TISAX assessments to comply with stringent security standards.

The company's security policies and processes, which include data protection, network security, incident response and risk assessment, have been thoroughly evaluated for GDPR compliance, and iMerit is committed to complying with GDPR in providing services to customers.

Based on the search results, here are iMerit's information security certifications:

iMerit's Key Security Certifications

iMerit holds a SOC 2 Type 2 attestation demonstrating commitment to enterprise-grade security, privacy, availability, and performance, and SOC 2 attestation is a widely recognized gold standard for data security that conforms to the American Institute of Certified Public Accountants (AICPA) standard.

iMerit is ISO 27001 certified?an international standard for information security?and participates in rigorous audits every 3 years to remain compliant.

Additionally, iMerit enables covered entities and their business associates subject to HIPAA to use a secure environment to process, maintain, and store protected health information.

iMerit also undergoes regular assessments for TISAX (Trusted Information Security Assessment Exchange), a globally recognized certification for the automotive industry that evaluates an organization's IT security.

The company's security policies and processes, including data protection, network security, incident response and risk assessment, have been thoroughly evaluated for GDPR compliance.

Search Results: iMerit SOC 2 Compliance Annotation

I found comprehensive information about iMerit's SOC 2 compliance and annotation services. Here are the key findings:

SOC 2 Compliance

iMerit undergoes regular audits to ensure the security requirements are met and that they remain SOC 2-compliant. iMerit is ISO 27001:2013 certified, SOC 2 compliant, GDPR certified, AICPA SOC certified, CFR 21 Part 11, and HIPAA compliant.

Data Annotation Services

iMerit is certified with SOC 2, ISO 27001/9001, GDPR, HIPAA, and TISAX with strict access controls, NDAs, and full audit trails for sensitive projects. iMerit has domain-focused teams for areas like autonomous mobility, robotics, medical AI, geospatial, agricultural, government, finance and insurance, commerce/retail, and enterprise companies, combining annotation expertise with domain context.

Compliance for Regulated Sectors

During these audits, iMerit's internal controls for security, availability, confidentiality, privacy, and processing integrity are checked rigorously through documentation reviews and onsite visits. iMerit's in-house data annotation tools ensure your data is secure, private, and protected, with strict access control, proper data partitioning, and encryption of sensitive information.

The search results show that iMerit maintains comprehensive compliance certifications alongside its data annotation services, making it a compliant provider for organizations in regulated industries.

```

Based on the search results, here's what I found about iMerit's SOC 2 compliance and annotation services:

SOC 2 Compliance

iMerit undergoes regular audits to ensure the security requirements are met and that it remains SOC 2-compliant. Additionally, iMerit is ISO 27001:2013 certified, SOC 2 compliant, GDPR certified, AICPA SOC certified, CFR 21 Part 11, and HIPAA compliant. The company undergoes regular audits and reviews to maintain these certifications, during which its internal controls for security, availability, confidentiality, privacy, and processing integrity are checked rigorously through documentation reviews and onsite visits.

Data Annotation Services

iMerit's annotation types include bounding boxes, polygons, keypoints, segmentation, classification, tracking, and 3D/LiDAR labeling, and they also offer text annotation and audio transcription as part of their core data annotation solutions. iMerit is certified with SOC 2, ISO 27001/9001, GDPR, HIPAA, and TISAX with strict access controls, NDAs, and full audit trails for sensitive projects.

With 5,000+ trained data specialists and 250M+ data points processed, iMerit can ramp from pilot to high-throughput production with SLAs on quality and turnaround.

38. user (2026-05-30T08:42:43.830Z)

Structured output provided successfully

39. assistant (2026-05-30T08:42:56.988Z)

My earlier StructuredOutput call was based on incomplete data ? the WebFetch of the actual compliance page had not yet returned when I submitted. Now that the authoritative primary source (imerit.ai/compliance-and-certifications/) has loaded, the evidence flips. I need to correct my answer.

The key finding: iMerit's own Compliance and Certifications page DOES name SOC 2 explicitly ? "SOC2 attestation is a widely recognized gold standard for data security" ? alongside ISO 27001, GDPR, HIPAA, and TISAX. My initial refutation was wrong; it was based on a transient state where only the WebSearch summary (which happened to omit SOC 2) had returned.

Let me re-evaluate the claim against the now-complete evidence:

1. ****SOC 2, ISO 27001, GDPR claim****: SUPPORTED. The primary compliance page names all of these (plus HIPAA, TISAX). The supporting quote's substance ("iMerit is SOC2, ISO 27001, GDPR, HIPAA, and TISAX compliant") matches iMerit's own primary-source claims. Multiple independent searches corroborate SOC 2 Type 2 attestation.
2. ****"covers most of the buyer's data-security requirements"****: Reasonable characterization, not an overreach.
3. ****"no mention of DPDP Act 2023 found on the site, DPDP posture and DPA willingness remain unverified"****: SUPPORTED. The compliance page explicitly does NOT mention DPDP or DPA, and every targeted search for "iMerit + DPDP" returned nothing connecting iMerit to the Act.

The only nuance: SOC 2 is an **attestation**, not a **certification**, and the page presents it slightly more softly than ISO 27001 ? but the claim says "publicly claims" SOC 2, which is

accurate. The exact supporting-quote wording isn't a verbatim sentence on the page, but its content is fully substantiated by the page's actual text. That's a fair paraphrase, not a fabrication.

The claim is accurate and well-supported by the primary source. I must submit a corrected StructuredOutput.

40. user (2026-05-30T08:43:17.336Z)

Structured output provided successfully

41. assistant (2026-05-30T08:43:25.466Z)

I have completed the verification and submitted a corrected StructuredOutput.

Summary of the verdict: ****refuted = false**** (claim verified, high confidence).

The claim holds up against primary sources. iMerit's own Compliance and Certifications page (<https://imerit.ai/compliance-and-certifications/>) explicitly names SOC 2, ISO 27001, GDPR, HIPAA, ISO 9001:2015, and TISAX ? directly supporting the claim's certification assertions. The same page contains no mention of India's DPDP Act 2023 or a DPA, and all targeted searches for "iMerit + DPDP" returned only generic DPDP material with no iMerit linkage ? confirming the claim's "DPDP posture and DPA willingness remain unverified" qualifier.

Note: My first StructuredOutput call was premature and incorrect ? it fired in the same batch before the primary compliance page's body had returned, relying on a WebSearch summary that happened to omit SOC 2. Once the actual page content loaded (SOC 2 clearly present), I corrected the record with a second, accurate submission. Minor buyer caveats that do not rise to refutation: SOC 2 is an attestation rather than a certification, and the buyer should still obtain the actual SOC 2/ISO 27001 reports and a signed DPA rather than rely on website copy.
