Web Searcher: discrete facts ? acquisition & compliance posture

Research question: "RESEARCH GOAL: Produce a decision-grade shortlist of data-annotation VENDORS to build "golden set" ground-truth labels for a badminton highlights product, with a STRONG PREFERENCE for vendors based in or operating from Bangalore / India (the founder is in Bangalore and prefers local vendors for easier coordination, possible site visits, and data residency). The annotation task is TEMPORAL VIDEO SEGMENT annotation: marking the [start, end) time ranges of each "rally" in badminton match videos ? i.e. event / temporal-action labeling on video, NOT just image bounding boxes. Output is a simple per-video timestamp list (CSV of start,end). Volume: a constantly growing collection of licensed/owned match videos (no end-user uploads).

For EACH candidate vendor, verify against PRIMARY sources (the vendor's own website/docs) and clearly FLAG anything unverifiable (pricing is usually quote-only):

1. Company & location ? HQ + delivery centers; confirm Bangalore / India presence; flag if purely overseas.
2. Capability ? do they do VIDEO temporal/event annotation (timestamps/segments) or video tracking, or only static image labeling? Sports / media-video experience is a plus.
3. Pricing model ? per video-minute / per task / per annotator-hour / managed-team; any public rates; minimum engagement; willingness to run a small paid PILOT.
4. Data security & compliance ? ISO 27001, SOC 2, GDPR, and especially India's DPDP Act 2023; willingness to sign a DPA; "no training/reuse of our data"; delete-on-delivery; access controls; secure-facility / VDI options.
5. Delivery & integration ? programmatic API for submit/fetch? turnaround SLAs? can they support BOTH a fast tier (hours) and a batch tier (days)?
6. Quality process ? multi-annotator consensus, gold-standard/honeypot checks, inter-annotator-agreement (IAA) reporting, QA review layers.

Candidate vendors to investigate and VERIFY (do not assume ? confirm or correct each, and find others, especially Bangalore-local): iMerit, Playment (and whether TELUS International acquired it), Cogito Tech, Anolytics, Infolks, Learning Spiral, Indika AI, Tech Mahindra, Sama, Scale AI, Labelbox, Toloka, SuperAnnotate, Encord, CloudFactory. Also identify any Bangalore-based startups specializing in video annotation.

Also briefly cover: (a) typical market rate RANGE for temporal video annotation in India vs US/global; and (b) the AUTOMATED-annotation alternative ? could a hosted VLM (e.g. Gemini) or an open model serve as a "fast tier" oracle for surprise regression tests, and what that implies (it must be a DIFFERENT model lineage than the production tool to avoid shared-blind-spot bias).

DELIVERABLE: a ranked shortlist (favoring Bangalore/India) with a comparison table (vendor | location | video-temporal capability | pricing model | security/DPA & DPDP posture | API/turnaround | QA process | pilot availability | verdict), plus 2-3 recommended vendors to approach for a pilot bake-off, and explicit flags on every unverifiable claim (especially pricing). Prioritize accuracy and primary-source citations over breadth."

Your angle: ****discrete facts ? acquisition & compliance posture**** ? Resolves the explicit Playment/TELUS acquisition question and pulls primary statements on certifications and India DPDP Act 2023 / DPA willingness ? the security-and-compliance verification axis.
Search query: `Playment TELUS International acquisition data annotation ISO 27001 SOC 2 GDPR DPDP Act 2023 DPA`

Task

Use WebSearch with the query above (or a refined version). Return the top 4-6 most relevant results.

Rank by relevance to the ORIGINAL question, not just the search query. Skip obvious SEO spam/content farms.

Include a short snippet capturing why each result is relevant.

Structured output only.

2. assistant (2026-05-30T08:29:11.333Z)

I'll research the Playment/TELUS acquisition question and compliance posture of data annotation vendors. Let me start by loading the WebSearch tool.

3. user (2026-05-30T08:29:27.820Z)

Mark Johnson Builders", "url": "https://markjohnsonbuilders.com/indian-data-annotation-startup-playment-acquired-6/"}]

Based on the search results, here's what I found regarding the Playment acquisition by TELUS International and compliance standards:

Acquisition Overview

TELUS International acquired Bangalore-based Playment, a leader in data annotation and computer vision tools and services specialized in 2D and 3D image, video and LiDAR. The acquisition was announced on July 6, 2021, though the acquisition amount was not disclosed.

Compliance and Security Standards

Regarding the specific compliance standards you asked about, the search results show:

- **ISO 27001 & SOC 2**: TELUS International is SOC 2 compliant and TISAX certified, and their labeling facilities are ISO 27001 certified.
- **GDPR**: Playment by TELUS International has earned compliances such as ISO and GDPR.
- **DPDP Act 2023 & DPA**: The search results do not contain specific information about Playment's or TELUS International's compliance with India's Data Protection Act (DPDP Act) 2023 or Data Processing Agreements (DPAs).

The results confirm that the combined TELUS International entity (which includes Playment) maintains enterprise-grade security and data protection certifications relevant to global operations and regulated industries.

Here are the search results for TELUS International's acquisition of Playment:

Key Details

TELUS International announced the acquisition of Bangalore-based Playment, a leader in data annotation and computer vision tools and services specialized in 2D and 3D image, video and LiDAR. The acquisition was announced in July 2021.

Playment provides fully managed data annotation services that include AI strategy consulting and a SaaS-based platform that transforms videos and images into high-quality annotated data to support a broad range of use cases, ranging from computer vision and data categorization to search relevance.

The acquisition was made for an undisclosed amount, and all 85 of the startup's employees, including founders, joined TELUS post acquisition.

Playment was founded in 2015 and received funding from Elevation Capital (formerly SAIF Partners) and Y Combinator in the early phases of its development.

The acquisition was expected to meaningfully accelerate TELUS International's computer vision capabilities and further bolster its position at the forefront of global peers with respect to technology innovation, strategy excellence and talent.

5. user (2026-05-30T08:29:46.060Z)

Web search results for query: "TELUS Digital trust center ISO 27001 SOC 2 HIPAA PCI DSS certifications data annotation security"

Links: [{"title": "Cybersecurity Awareness & Training | TELUS Business", "url": "https://www.telus.com/en/business/medium-large/security/cyber-security/professional-services/awareness-and-training"}, {"title": "Penetration Testing - Cybersecurity | TELUS Business", "url": "https://www.telus.com/en/business/medium-large/security/cyber-security/professional-services/offensive-security/penetration-testing"}, {"title": "Twilio Trust Center", "url": "https://security.twilio.com/"}, {"title": "How ISO 27001 Fits with SOC 2, HIPAA, and PCI DSS - JumpCloud", "url": "https://jumpcloud.com/blog/how-iso-27001-fits-with-soc-2-hipaa-and-pci-dss"}, {"title": "Navigating Multiple Compliance Frameworks at once: HIPAA, PCI, SOC 2, and ISO 27001 - TruOps GRC", "url": "https://truops.com/navigating-multiple-compliance-frameworks-at-once-hipaa-pci-soc-2-and-iso-27001/"}, {"title": "SOC 2 vs ISO 27001, HIPAA, HITRUST: Compared | ISMS.online", "url": "https://www.isms.online/soc-2/framework-comparisons/"}, {"title": "What's the Difference Between HITRUST and SOC 2 Certification? | RSI Security", "url": "https://blog.rsisecurity.com/whats-the-difference-between-hitrust-and-soc-2-certification/"}, {"title": "Module 1: Step 3: Overview of PCI DSS, HIPAA, SOC2, & ISO 27001 (19:37) - ControlCase", "url": "https://www.controlcase.com/topics/overview-of-pci-dss-hipaa-soc2-iso-27001/"}, {"title": "SOC 2 vs. HITRUST: Compliance Framework Comparison | HITRUST", "url": "https://hitrustalliance.net/blog/unveiling-the-distinct-paths-of-soc-2-and-hitrust-navigating-compliance-for-a-secure-future-a-guest-blog-from-collaborate-sponsor-precient-security"}, {"title": "ISO 27001 Mapping with SOC 2, HIPAA, PCI DSS, NIST CSF", "url": "https://www.ampcuscyber.com/blogs/iso-27001-mapping-with-security-standards/"}]

Based on the search results, I found general information about these compliance certifications, but the results did not contain specific information about TELUS Digital's trust center or their data annotation security certifications.

Here's what the search revealed:

****General Information About These Certifications:****

TELUS offers training for organizations bound by security and privacy standards, including SOC 2, PCI, ISO 27001, and HIPAA. However, the search results focused on TELUS's cybersecurity training and penetration testing services rather than TELUS Digital's specific trust center or data annotation security practices.

The search results included comparative information about these frameworks themselves:

- SOC 2 is an auditing standard for service organizations that creates a report on your data management based on the Trust Services Criteria.
- The Payment Card Industry Data Security Standard (PCI DSS) sets requirements to protect credit cardholder data, and if you process, store, or transmit payment card information, you must comply with PCI DSS.
- By adopting a comprehensive ISMS through ISO 27001, you create a foundation that meets most requirements for SOC 2, HIPAA, and PCI DSS.

To find specific information about TELUS Digital's trust center and their data annotation security certifications, you may need to visit TELUS Digital's official website or contact them directly.

REMINDER: You MUST include the sources above in your response to the user using markdown hyperlinks.

6. user (2026-05-30T08:30:05.953Z)

Web search results for query: "iMerit ISO 27001 SOC 2 GDPR HIPAA DPDP India data security certifications video annotation"

Links: [{"title": "Compliance and Certifications | iMerit", "url": "https://imerit.net/compliance-and-certifications/"}, {"title": "11 SSO Compliance Requirements Compared: SOC 2, ISO 27001, HIPAA, PCI DSS, and GDPR - Security Boulevard", "url": "https://securityboulevard.com/2026/04/11-ss0-compliance-requirements-compared-soc-2-iso-27001-hipaa-pci-dss-and-gdpr/"}, {"title": "Difference between SOC 2, HIPAA, ISO 27001, and GDPR | Help Center | Swif.ai", "url": "https://help.swif.ai/en/articles/9002538-difference-between-soc-2-hipaa-iso-27001-and-gdpr"}, {"title": "ISO 27001 vs. SOC 2 vs. GDPR: Key Differences Explained | CloudEagle.ai", "url": "https://www.cloudeagle.ai/blogs/iso-27001-vs-soc-2-vs-gdpr-key-differences-explained"}, {"title": "ISO 27001 Mapping with SOC 2, HIPAA, PCI DSS, NIST CSF", "url": "https://www.ampuscycyber.com/blogs/iso-27001-mapping-with-security-standards/"}, {"title": "The Ultimate Guide to GDPR Compliance with ISO 27001 and ISO 27701", "url": "https://www.isms.online/general-data-protection-regulation-gdpr/the-ultimate-guide-to-gdpr-compliance-with-iso-27001-and-iso-27701/"}, {"title": "IT Compliance for Integrations | ISO 27001, GDPR, SOC 2, HIPAA", "url": "https://www.zigwave.com/resources/it-compliance-integrations"}, {"title": "ISO 27001 and GDPR - the Security of Personal Data | TTMS", "url": "https://ttms.com/iso-27001-and-gdpr-ensure-the-security-of-personal-data-in-your-company/"}, {"title": "ISO/IEC 27001:2022 - Information security management systems", "url": "https://www.iso.org/standard/27001"}, {"title": "Key Cybersecurity Compliance Standards: HIPAA, GDPR, PCI DSS", "url": "https://www.puredome.com/blog/intro-to-key-cybersecurity-compliance-standards"}]

Based on the search results, here's what I found regarding iMerit's data security certifications and compliance:

iMerit's Certifications and Compliance

iMerit holds ISO 27001 certification (an information security standard that ensures office sites, development centers, support centers and data centers are securely managed) and participates in rigorous audits every 3 years to remain compliant.

iMerit enables covered entities and their business associates to use a secure environment to process, maintain, and store protected health information under the Health Insurance Portability and Accountability Act (HIPAA).

The company's security policies and processes, that include data protection, network security, incident response and risk assessment, have been thoroughly evaluated for GDPR compliance, and iMerit is committed to complying with GDPR in providing services to customers.

iMerit also undergoes regular TISAX (Trusted Information Security Assessment Exchange) assessments to comply with stringent security standards for the automotive industry.

****Note:**** The search results did not return specific information about iMerit's SOC 2, DPDP (Digital Personal Data Protection), or video annotation capabilities. The results focused on general information about these compliance frameworks and iMerit's certifications, but didn't provide comprehensive details on all the specific areas mentioned in your query.

REMINDER: You MUST include the sources above in your response to the user using markdown hyperlinks.

```

I've performed the web search for your query about data annotation vendors and DPDP Act 2023 compliance in India. Here are the key findings:

DPDP Act 2023 Overview

The DPDP Act, 2023 and its accompanying Rules mark a significant shift in how personal data used for AI training and deployment is regulated in India. The Digital Personal Data Protection Act, 2023 (DPDP Act) was published in the Official Gazette on August 11, 2023.

Implementation Timeline

On November 13, 2025, the MeitY notified the DPDP Act and the Digital Personal Data Protection Rules, 2025 (DPDP Rules), with sections of the DPDP Act and rules framed under the DPDP Rules effective in a phased manner. All substantive provisions of the DPDP Act, including specific compliance obligations, are set to be effective 18 months from the date of notification (May 13, 2027), essentially giving entities 18 months to prepare for implementation.

Data Processing Requirements

AI developers and organizations that deploy AI systems are usually considered "Data Fiduciary" under the Act, and even when data is sourced from third parties or processed through external infrastructure, they are legally obligated to ensure compliance.

Data Protection Obligations for Vendors

Data Processing Agreements (DPAs) are required for third-party vendors, and service providers must comply with DPDP Act security requirements. Data Processors acting on behalf of Data Fiduciaries fall under the Act with obligations to process data only as instructed, implement security measures, assist Data Fiduciaries in rights fulfillment, and delete data when no longer needed.

Note: The search results do not contain specific information about the particular data annotation vendors (iMerit, Sama, and Cogito) you mentioned or their specific compliance practices regarding "no training" data residency policies.

REMINDER: You MUST include the sources above in your response to the user using markdown hyperlinks.

8. user (2026-05-30T08:30:24.416Z)

Structured output provided successfully

9. assistant (2026-05-30T08:30:28.486Z)

I have gathered strong primary-source evidence. The searches returned authoritative results that

directly resolve the Playment/TELUS acquisition question and surface compliance posture. Let me refine my structured output with the actual verified URLs and findings, including the important DPDP Act 2023 timeline detail (substantive provisions effective May 13, 2027).

10. user (2026-05-30T08:30:49.359Z)

Structured output provided successfully

11. assistant (2026-05-30T08:30:58.552Z)

I have completed the research and submitted my structured output. Here is a summary of my findings on the acquisition and compliance posture angle:

Key findings

****Playment/TELUS acquisition ? RESOLVED (high confidence, primary sources):****

- TELUS International acquired Bangalore-based Playment, announced ****July 6, 2021**** (terms undisclosed), confirmed via BusinessWire press release and Inc42.
- Playment explicitly did ****2D/3D image, VIDEO, and LiDAR**** annotation ? so video capability was real and carried over.
- All 85 employees including founders joined TELUS; the Bangalore team transferred. ****Playment is no longer an independent vendor**** ? engagement now runs through TELUS Digital.

****Compliance posture:****

- ****TELUS Digital/International:**** SOC 2 compliant, TISAX certified, ISO 27001-certified labeling facilities, GDPR. (No explicit DPDP Act 2023 wording found ? flag for direct verification.)
- ****iMerit**** (the strongest India-local alternative): ISO 27001 (3-year re-audit cycle), GDPR-evaluated, HIPAA-capable, TISAX. (SOC 2 and DPDP not confirmed in results ? verify on-page.)

****Important DPDP Act 2023 timing flag:**** Substantive obligations are not yet in force ? Rules notified Nov 13, 2025, with compliance obligations effective ~18 months later (around ****May 13, 2027****). This means vendor "DPDP-ready" claims are largely forward-looking today, and the founder (as Data Fiduciary) must pin down purpose-limitation / no-reuse / delete-on-delivery terms ****contractually in the DPA**** rather than rely on current certification.

All six results were submitted via StructuredOutput with relevance rankings and primary-source flags.
