Repo: C:\Users\avidu\Projects\badminton-highlight-indexer (branch docs/pmf-field-signals ? uncommitted working-tree changes included; read the files as they are on disk).
Files under review (read all in full):
- docs/PRODUCT_FIELD_ASSOCIATE_FLYER.md (NEW - the recruiting flyer the owner hands to CANDIDATES; the owner recruits personally)
- docs/FIELD_RESEARCH_ASSOCIATE_FLYER.md (reframed - now the hired associate's visit PLAYBOOK: coach script Q1-Q7, demo-after-Q6 rule, student questions, ground rules, Phase-2 record-and-show-back)
- docs/FIELD_VISIT_ANSWER_SHEET.md (per-visit form incl. new demo-reaction + student blocks)
- docs/PMF_FIELD_SIGNALS.md (the pre-registered decision layer; demo/student data = product feedback, NOT verdict signals)
Grounding (read as needed): docs/PMF_MARKET_RESEARCH.md, docs/UI_PROPOSAL.md + docs/UI_ALPHA_EXECUTION_PLAN.md + docs/HOSTING_PLAN.md (what the UI/hosting can honestly claim today), CLAUDE.md guardrails (minors exclusion, consent).

Owner's spec (verbatim intent): hire a person who visits academies, talks to coaches AND students, to understand how the project helps them and gather improvement feedback - full stop. Stretch goal: that person helps record videos, we run the pipeline, show the academy a sample result ("how it will look for them"). UI will be ready by then; hosting plan exposes the service to a few allwlisted people. The flyer must let a reasonable (non-technical) person understand the gig; the owner recruits personally.

A critic claims the following flaw. Adversarially verify by reading the actual files - try to REFUTE it. Default to refuted if pedantic, out of scope for a one-person 3-4 week field gig run personally by the owner, or already handled elsewhere in the kit.

CLAIM [low] No legitimacy anchor ? an unnamed product with blanks for contact reads scam-adjacent to careful candidates
The flyer names KhelSutra and 'Avi' but gives no sentence about who is behind it (no 'built by a Bengaluru engineer', no site/link, nothing verifiable). The playbook's own coach-facing opening script (FIELD_RESEARCH_ASSOCIATE_FLYER.md line 33) is MORE forthcoming ('helping a Bengaluru engineer who's building...') than the candidate-facing flyer. Good candidates vet gig flyers; the careful ones ? exactly who you want ? are the ones who bounce on unverifiable ones.
Proposed fix: Add one honest line under 'The product, in plain words': 'KhelSutra is a pre-launch product built by Avi, a Bengaluru software engineer ? you'd be its first field hire.'
Optionally add the app domain once live.

13
14     ## The product, in plain words
15
16     **KhelSutra** turns ordinary practice/match video from a badminton academy into
17     ready-to-use pieces: it automatically finds **every rally** in the recording, cuts
18     **highlight reels**, and produces a simple **match report**. It works on video from
19     a phone on a tripod ? no special cameras, no hardware to install. A private web
20     app is opening to a small set of invited academies.
21
22     ## The job, in one paragraph
23
24     Visit good badminton academies across Bengaluru and have honest conversations with
25     **coaches AND students**: how do they work with video today, would something like
26     this actually help them, and **what would make it genuinely useful for them** ?
27     including what's missing or wrong with the idea. You work from a provided
28     conversation guide, write down what people **actually say** (the negative answers
29     matter most), and debrief with Avi after each visit. **You are gathering feedback,
30     **not selling.** No tech background needed.
31
32     ## The stretch goal (extra pay)
33
34     For academies that are interested, you coordinate a simple recording session ?
35     a phone on a tripod, one-page checklist provided. We run that video through
36     KhelSutra, and you go back and show them **their own court, their own players, as
37     **highlight reels and a report**: **"this is what it looks like for you."* Then you
38     write down exactly what they say. There is no stronger feedback than that moment.
39
40     ## What you'll actually do
41
42     - Visit **10?15 academies** (intro + conversation, ~20?30 minutes each).
43     - Talk to the **owner/head coach** first, and ? with their permission ? a few
44     **senior or adult students** about whether they'd watch/share their own rally
45     clips and what they'd want from them.
46     - Fill **one structured answer sheet per visit** (we provide it) ? their words,
47     not yours, including the most negative thing said.
48     - Show a short sample reel on your phone **only at the point the guide says to**
49     (after the open questions ? it changes people's answers if shown early).
50     - Debrief with Avi after each visit (WhatsApp/call). **Your first two visits are
51     **done together with him**, so you're never improvising.
52     - **Stretch:* coordinate recording sessions and present the sample results back.
53
54     ## You're a good fit if
55
56     - You're comfortable walking into an academy and starting a conversation with a
57     stranger ? and just as comfortable hearing "no, this is useless to us."
58     - You can capture what people said **accurately** ? quotes, not summaries.
59     - Kannada / Hindi / English, as the conversation needs (you choose the mix).
60     - You play or follow a racket sport (helps a lot; not required).
61     - No technical skills needed. Reliability matters more than anything else.
62
63     ## What you get
64
65     - Paid per completed honest visit ? **not** per positive answer. A well-documented
66     "they hated it, here's why" is a fully paid, fully successful visit.
67     - Ground-floor view of a real sports-AI product finding its market; your field
68     notes directly shape what gets built next.

```

```

69 - Flexible hours, short commitment, clear scope.
70
71 ## Ground rules (the short version ? full version provided on joining)
72
73 1. Honesty over positivity. Never oversell, never promise features, prices, or dates.
74 2. **No recording of any person without written consent** ? and sessions involving
75    **minors are never recorded** for our use, period. In regular visits you record
76    nothing at all: notes only.
77 3. People's contact details stay between you and Avi.
78
79 ## How to apply
80
81 Message Avi at ____ with ***"FIELD"**, one line about a sport you follow, and one
82 line about a time you had to get honest feedback out of someone. First reply gets
83 a 15-minute call.

15 ## The gig in one paragraph
16
17 KhelSutra takes ordinary practice/match video from a badminton academy and automatically
finds every rally, builds
18 highlight reels, and generates match reports; a private web app is opening to a few
invited academies. We need honest,
19 on-the-ground feedback from real academies ? **how they work with video, whether this
actually helps them, and what
20 would make it genuinely useful**. **Your job: visit 10?15 good academies, have a
friendly 20?30 minute conversation
21 with the owner/head coach (and, with permission, a few senior/adult students) using the
script below, and write down
22 what they actually say.** No selling. No tech knowledge needed. For interested academies
there's a Phase-2 follow-up
23 (a recording session ? then you return and show them THEIR OWN footage as highlights)
with additional compensation.
24
25 ---
26
27 ## Phase 1 ? The conversation (what you actually do)
28
29 **Who to talk to:** the academy owner or head coach ? the person who decides what the
academy spends money on.
30 If you get a junior coach, be friendly, gather what you can, and ask when the owner is
available.
31
32 **Opening (keep it this honest):**
33 > "Hi, I'm helping a Bengaluru engineer who's building an AI tool for badminton
academies ? it takes normal practice

```

34 > video and automatically cuts it into rallies and highlights. He asked me to talk to a few serious academies to

35 > understand how you work with video today. Could I ask you a few questions? Takes 15 minutes, and we're not selling

36 > anything today."

37

38 **The questions (ask in this order; the starred ones matter most):**

39

40 1. Do you ever video-record sessions or matches here? How ? phone, tripod, CCTV, a hired person?

41 2. ? **Do you have recorded footage sitting around that nobody has time to watch?** (multi-court hall recordings,

42 tournament days, CCTV) ? roughly how much?

43 3. Who would watch rally clips or highlights if they existed ? coaches for training? players? parents?

44 4. What do you use today for any of this? (Listen for: Machaxi, VISIST, Game Theory, Stupa, BadPro+, just

45 YouTube/phone.) What do you like / what's missing in it?

46 5. ? **If you could hand over a full session's video and get back every rally cut out + a highlight reel + a simple

47 report ? would you pay per match for that? What would that be worth to you, per match?** Then **stop talking and

48 wait** ? let THEM name the number. If they genuinely won't after a pause and one "roughly?", you may offer the

49 ladder: "?100, ?300, ?500?" **On the sheet, tick whether their number came BEFORE or AFTER you offered the

50 ladder** ? it changes what the answer means. (Note their face, not just the words.)

51 6. Your hall has multiple courts running at once, right? Does that make video less useful today?

52

53 **? NOW (and only now) show the sample reel** ? a ~60-second real highlight reel we put on your phone. Say: "this is

54 what it produces ? every rally found and cut automatically." Then shut up and watch their face. Write down their

55 FIRST reaction verbatim, and ask one follow-up: ***"what would this need to do for it to be useful for YOUR academy?"**

56 (Improvement asks, in their words, go on the sheet. Showing it earlier anchors every answer above ? never lead with it.)

57

58 7. Would you let us record one session here (we pay a small fee for the time) and come back showing what the tool

59 produces on YOUR court, your players? *(This is the Phase-2 door ? just note yes/no/maybe and who to call.)*

60

61 **Students (with the coach's permission ? senior/adult students only, 5 minutes):** ask 2?3 of them:

62 (a) **"Would you watch clips of your own rallies if they existed after each session?"

63 (b) **"Would you share them ? with whom?"

64 (c) **"What would you want them to show?"

65 Capture their answers in the sheet's student block. Don't

66 collect students' contact details; if everyone available is a minor, skip the student questions ? note that instead.

67

68 **After each visit, fill ONE answer sheet ? the template is [`FIELD\_VISIT\_ANSWER\_SHEET.md`](FIELD_VISIT_ANSWER_SHEET.md)

69 (print one per visit):** academy name, location, # courts, person spoken to + role + contact, answers 1?7 (their

70 words, not yours), the most negative thing they said (required), exact quotes, your gut read, and whether they're a

71 Phase-2 candidate. *(How the answers get scored and what totals trigger which decision lives in

72 [`PMF\_FIELD\_SIGNALS.md`](PMF_FIELD_SIGNALS.md) ? that part is ours, not yours; just capture honestly.)*

73

74 ---

73
74 ## Ground rules & gotchas (read twice ? this is the difference between useful and
useless)
75
76 1. **You are researching, not selling.** If they ask "how much will it cost", say
"that's exactly what he's trying to
77 figure out ? what would feel fair to you?" Never quote a price yourself.
78 2. **Past behavior beats opinions.** "Would you use video?" gets polite lies. "When did
you LAST record a session, and
79 what happened to that file?" gets the truth. Prefer the second kind of question.
80 3. **Don't promise anything.** No features, no dates, no free trials. You may SHOW the
standard sample reel (it's
81 real output ? at the scripted moment only, after Q6) and you may offer the Phase-2
idea (a paid recording session
82 + free sample output of their own court), and only as "would you be open to it".
Nothing else.
83 4. **Write down disappointing answers verbatim.** A "no, we'd never pay for that" with a
reason is worth MORE to us
84 than five vague yeses. You're paid per completed honest visit, not per positive
answer.
85 5. **If they already use a competitor (Machaxi/VISIST/Game Theory etc.) ? goldmine.**
Ask what it does well, what it
86 doesn't, and what they pay. Spend extra time here.
87 6. **Multi-court is our favorite topic.** If they complain that video is useless because
"all the courts are in frame
88 and it's chaos" ? capture that complaint in their exact words. That's the problem we
solve.
89 7. **No recordings of people without clear permission.** In Phase 1 you record NOTHING ?
notes only. Don't photograph
90 the academy or players unless the owner offers.
91 8. **Don't oversit.** 20 minutes, thank them, leave a good impression ? we may come back
to record.
92 9. **Confidentiality:** don't describe the tech beyond the opening line, don't name
other academies' answers, and
93 don't share the answer sheets with anyone except Avi.
94
95 ---
96
97 ## Phase 2 (only for academies that said yes ? separate briefing & pay)
98
99 You coordinate a recording session: we pay the academy a small fee, set up a
phone/camera on a tripod (we provide a
100 one-page capture checklist: behind the court, elevated, whole court in frame, landscape,
1080p/60fps, don't move it),
101 record 122 sessions ? then we process the footage through KhelSutra and **you return to
present the academy its own
102 sample output** (their court, their players, as a highlight reel + report, free) and
fill a short reaction sheet:
103 what they said when they saw it, what they'd change, whether they asked to keep using
it. That show-back conversation
104 is the single most valuable artifact this whole engagement produces. **Hard rules:**
written consent from the academy
105 AND the adult players being recorded; **sessions with minors are not recorded for our
library** ? adult sessions only;
106 the academy gets told plainly what the footage is for (building and demonstrating the
tool).
107
108 ---
109
110 ## Day one
111
112 Your first 2 visits are paired (you + Avi, or a live phone walkthrough) so you're never
improvising. Before visit 1:
113 read this playbook twice, have the sample reel saved offline on your phone, and carry
printed answer sheets

114 ([`FIELD\_VISIT\_ANSWER\_SHEET.md`])(FIELD_VISIT_ANSWER_SHEET.md) ? one per academy).

Verdict returned: refuted (severity none). The flyer names the product, names and makes the founder directly reachable, and the personal-recruiting context plus template-placeholder blanks defeat the scam-adjacency harm model; the only addressable "anchor" the critic proposes is itself unverifiable prose.
