Repo: C:\Users\avidu\Projects\badminton-highlight-indexer (branch docs/pmf-field-signals).
Review these files (read them in full):

- docs/PMF_FIELD_SIGNALS.md (NEW - hypotheses H1-H7, GREEN/AMBER/RED scoring anchors, pre-registered decision rules PROCEED/PIVOT A-C/FALSIFIED, rollup mechanics, guardrails)
- docs/FIELD_VISIT_ANSWER_SHEET.md (NEW - the per-visit capture form a non-technical field associate fills by hand)
- docs/FIELD_RESEARCH_ASSOCIATE_FLYER.md (EXISTING, lightly edited - the recruit hand-out with the 7-question script and ground rules)

Grounding docs (also read): docs/PMF_MARKET_RESEARCH.md (esp. SS6 risks and pricing anchors), docs/NEXT_STEPS.md item 5, docs/COMMERCIALIZATION.md C13 row.

Context: the owner ratified that PMF validation happens by physically visiting Bangalore badminton academies (10-15 visits by a paid non-technical field associate) and reading signals. The kit's job: make 15 visits produce a pre-registered verdict (proceed/pivot/falsified) rather than motivated reasoning. Product = KhelSutra (rally indexing + highlights from static-camera footage; wedge = messy multi-court BYO footage; serving COGS ~\$0.30-0.60/hr via Gemini).

A critic claims the following flaw in the field-validation kit. Adversarially verify by reading the actual files - try to REFUTE it. Default to refuted if the flaw is pedantic, out of scope for a 10-15-visit directional read, or already mitigated elsewhere in the kit.

CLAIM [low] Session-cost arithmetic slightly off and the match-vs-session unit is conflated
PMF_FIELD_SIGNALS.md lines 31-33: at the stated ?25-50/hr, a 2-3 hr session costs ?50-150, not 'roughly ?75-150' (the printed range is the 3-hr span only; 2 hr x ?25 = ?50). More substantively, the sentence computes a per-SESSION cost and then concludes '?100/match is break-even-ish' ? which is only true if one 'match' hand-over means the whole 2-3 hr session tape. If a match is read as a single ~30-60 min match recording (cost ?25-50), ?100/match has healthy margin. The flyer's Q5 ('hand over a full session's video ... pay per match') carries the same session/match blur, so the scoring doc should pin the unit.
Proposed fix: Change to '?50-150' and add a clarifying clause, e.g. 'treating one hand-over (a full session tape, 2-3 hr) as one billed match ? the unit the Q5 script implies'.

1      # C13 Field Signals ? what academy visits must tell us (and when to change course)
2
3      **Status:** ACTIVE ? the decision layer for the C13 beachhead validation
4      (owner-ratified direction, 2026-06-12: *PMF validation is handled by physically
5      visiting academies and reading signals on the ground*).
6      **Companions:** [`FIELD_RESEARCH_ASSOCIATE_FLYER.md`](FIELD_RESEARCH_ASSOCIATE_FLYER.md)
7      (the recruit hand-out: script + ground rules) .
8      [`FIELD_VISIT_ANSWER_SHEET.md`](FIELD_VISIT_ANSWER_SHEET.md) (the per-visit capture
form) .
9      [`PMF_MARKET_RESEARCH.md`](PMF_MARKET_RESEARCH.md) (the hypotheses under test, esp. §6).
10
11     **Why this doc exists:** the flyer collects answers; this doc fixes ? **before the
12     first visit** ? what those answers *mean* and what totals trigger which decision.
13     Pre-registering the thresholds is the honesty mechanism: it stops us from reading
14     15 ambiguous conversations as whatever we hoped to hear.
15
16     ---
17
18     ## 1. The hypotheses under test (each maps to script questions)
19
20     | ID | Hypothesis (from PMF research) | Falsified looks like | Script Q |
21     |---|---|---|---|
22     | H1 | **Recording behavior exists** ? academies already produce fixed-angle / CCTV /
multi-court footage without us | nobody records; "we'd have to start for you" | Q1 |
23     | H2 | **Dead-footage pain** ? recorded footage piles up unwatched (the indexing wedge)
| footage is small, or already gets watched | Q2 ? |
24     | H3 | **An audience exists** ? coach, player, or parent would actually consume rally
clips/reels | shrug; "who has time to watch clips" | Q3 |
25     | H4 | **Whitespace** ? incumbents (Machaxi, VISIST, Game Theory, Stupa, BadPro+) leave
a gap we fit | "we use X, it's fine, fully solved" | Q4 |
26     | H5 | **Willingness to pay per match** at a price that clears unit economics | "should
be free" / <?100 everywhere | Q5 ? |
27     | H6 | **Multi-court chaos is a felt problem** (our moat: indexing messy BYO multi-court
footage) | multi-court video already useful to them | Q6 |
28     | H7 | **Behavioral commitment** ? they'll let us record on their court (Phase-2 door) |
polite no across the board | Q7 |
29
30     Unit-economics floor behind H5: serving COGS on the Gemini path is ~$0.30?0.60 per
31     hour of video (? ?25?50/hr; 2026-06-10 quality table). A 2?3 hr session costs
32     roughly ?75?150 to process, so **?300/match has real margin, ?100/match is
33     break-even-ish at retail** ? that's why the script's anchor ladder is ?100/300/500.
34
35     ## 2. Per-visit scoring ? GREEN / AMBER / RED anchors
36
37     Score each hypothesis on the answer sheet **from what they said and showed, not
38     what you inferred**. When between two grades, take the lower one.
39
40     | | GREEN (strong confirm) | AMBER (weak/mixed) | RED (disconfirm) |
41     |---|---|---|---|
42     | **H1 record** | shows or names actual setup (tripod/CCTV/phone rig) used ?monthly |
records occasionally (tournaments only) | doesn't record; no plans |
43     | **H2 dead footage** | points at real unwatched volume (?~5 hrs, "CCTV runs all day",
tournament backlog) | some footage, partially watched | no backlog exists |
44     | **H3 audience** | names WHO would watch and WHEN (e.g. "parents ask for clips", "I
review with students Mondays") | "could be useful, maybe" | no consumer identified |
45     | **H4 whitespace** | no tool today, or uses one and volunteers a gap we cover (multi-
court, BYO footage, price) | uses a competitor, mildly satisfied | competitor solves it,
satisfied, sticky |
46     | **H5 WTP** | volunteers ??300/match unprompted, or proposes a budget framing of their
```

own (per-student/per-month) | lands at ~?100 with hesitation | refuses to name a number / "free"

|

47 | ****H6 multi-court**** | complains about it in their own words before/without prompting | agrees when asked | multi-court footage already works for them |

48 | ****H7 Phase-2**** | yes + gives a name/number/slot | "maybe, come back" | no |

49

50 ****Weighting rule (behavior > words):**** H7-GREEN and H2-GREEN are ***behavioral***

51 signals and count double in your gut-read; H3/H5 answers are ***talk*** until a Phase-2

52 session or a real payment corroborates them. A visit with H5-GREEN but H7-RED is a

53 polite conversation, not a customer.

54

55 ****Disconfirming-evidence quota:**** every visit sheet must record at least one

56 verbatim ***negative*** quote (the thing they liked least / wouldn't pay for). If a

57 sheet has only positives, the visit gets re-done or discounted ? per the flyer's

58 ground rule 4, a reasoned "no" is worth more than five vague yeses.

59

60 **## 3. Pre-registered decision rules (n = 10?15 academies)**

61

62 Counts, not percentages ? at this sample size we're reading direction, not

63 estimating proportions. Evaluate after ****every 5 completed sheets****; final call at

64 the agreed n. "GREEN" below means GREEN on that hypothesis row.

65

66 | Verdict | Trigger (pre-registered) | What we then do |

67 |---|---|---|

68 | ****PROCEED ? beachhead validated**** | ?6 H2-GREEN ****and**** ?4 H5 at ?300+ ****and**** ?3

H7-GREEN | Run the camera pilot at the 2?3 warmest academies; those contacts seed the UI-alpha

Wave-1 invite list (UI_ALPHA_EXECUTION_PLAN Phase R); start the paid-pilot conversation with the

single warmest |

69 | ****PIVOT A ? "index the backlog" ? "record + index" service**** | H2 mostly RED (<3

GREEN) but H3+H5 healthy on ***fresh*** recordings | The pain isn't the archive, it's that nothing

useful gets made at all ? lead with the Phase-2 recording offer; camera pilot becomes the

product wedge, not the demo |

70 | ****PIVOT B ? partner/API motion**** | H4 RED at ?5 academies (incumbents entrenched and

liked) | Don't fight installed hardware head-on; explore the engine/API route through whoever

owns the academy relationship (the PB Vision x PodPlay template from the 2026-06-10 audit) |

71 | ****PIVOT C ? payer is the parent, not the academy**** | H5 RED from owners but H3

repeatedly names parents/players asking for clips | Re-test WTP as B2C per-student reels (?/reel

to parents) with the academy as channel, not customer |

72 | ****FALSIFIED ? beachhead assumption fails**** | <3 academies record at all (H1) ****and**** 0

H7-GREEN | The "academies already record fixed-angle" premise (PMF §6 risk 1) is wrong for this

market ? revisit beachheads #2/#3 (pickleball-US, badminton Asia/Denmark) before building

further |

73

74 Mixed outcomes that match no row: write up the per-hypothesis tallies and decide

75 explicitly with the owner ? but ****the tallies above get computed first****, so the

76 discussion starts from the pre-registered read, not from anecdotes.

77

78 ****Competitor-intel side-channel (always-on):**** any visit where a competitor is

79 named ? fill the answer sheet's competitor block (what it does, what it misses,

80 what they pay). ?3 consistent reports about one product = update

81 **`PMF\_MARKET\_RESEARCH.md`** §4 with field-verified rows (today's table is web-sourced).

82

83 **## 4. Mechanics**

84

85 - One [**`FIELD\_VISIT\_ANSWER\_SHEET.md`**](FIELD_VISIT_ANSWER_SHEET.md) per academy,

86 same day as the visit, in the associate's words + verbatim quotes.

87 - The owner (or Claude session) transcribes each sheet into one row of the rollup

88 table below (keep it in this doc or a sheet next to it); tallies and the

89 decision-rule read-out update per 5 visits.

90 - Demo asset if a conversation earns it: the real compiled reel

91 (**`output/MahadevpuraSingles\_highlights.mp4`**) on a phone ? ***show, never promise***

92 (flyer ground rule 3 still applies; the associate doesn't carry the demo,

93 the owner does on follow-ups).

94

95 **### Rollup table (one row per completed visit)**

```

96
97 | # | Academy | Area | Courts | Role spoken to | H1 | H2 | H3 | H4 | H5 (?) | H6 | H7 |
Gut | Phase-2? |
98 |---|---|---|---|---|---|---|---|---|---|---|---|
99 | 1 | | | | | | | | | | | |
100
101 ### Tally ? decision read-out (recompute per 5 visits)
102
103 | Metric | Count | Threshold in play |
104 |---|---|---|
105 | H2 GREEN (dead footage) | /n | ?6 ? PROCEED leg; <3 ? PIVOT A leg |
106 | H5 at ?300+ | /n | ?4 ? PROCEED leg |
107 | H7 GREEN (Phase-2 yes + contact) | /n | ?3 ? PROCEED leg; 0 ? FALSIFIED leg |
108 | H4 RED (incumbent satisfied) | /n | ?5 ? PIVOT B |
109 | H1 any recording | /n | <3 ? FALSIFIED leg |
110 | H5 RED + H3 names parents | /n | recurring ? PIVOT C |
111
112 ## 5. Guardrails that bind the field work
113
114 - **Phase 1 records nothing** ? notes only (flyer rule 7).
115 - **Phase 2 consent rules are hard:** written consent from the academy AND adult
116   players; **sessions with minors are never recorded for our library** (training-pool
117   guardrail, CLAUDE.md); the academy is told plainly what the footage is for.
118 - Answer sheets contain personal contact details ? they stay between the associate
119   and the owner; transcribe to the rollup without phone numbers.

10     ## The gig in one paragraph
11
12     We're building an AI tool that takes ordinary practice/match video from a badminton
13     academy and automatically finds
14     every rally, builds highlight reels, and generates match reports. Before building
15     further, we need honest, on-the-ground
16     answers from real academies about how they record, what they'd use, and what they'd pay.
17     **Your job: visit 10?15 good
18     academies, have a friendly 15?20 minute conversation with the owner/head coach using the
19     script below, and write down
20     what they actually say.** No selling. No tech knowledge needed. If a conversation goes
21     well, there's a Phase-2 follow-up
22     (coordinating a paid video-recording session) with additional compensation.
23
24     ---
25
26     ## Phase 1 ? The conversation (what you actually do)
27
28     **Who to talk to:** the academy owner or head coach ? the person who decides what the
29     academy spends money on.
30     If you get a junior coach, be friendly, gather what you can, and ask when the owner is
31     available.
32
33     **Opening (keep it this honest):**
34     > "Hi, I'm helping a Bengaluru engineer who's building an AI tool for badminton
35     academies ? it takes normal practice
36     > video and automatically cuts it into rallies and highlights. He asked me to talk to a
37     few serious academies to
38     > understand how you work with video today. Could I ask you a few questions? Takes 15
39     minutes, and we're not selling
40     > anything today."
41
42     **The questions (ask in this order; the starred ones matter most):**
43
44     1. Do you ever video-record sessions or matches here? How ? phone, tripod, CCTV, a hired
45     person?
46     2. ? **Do you have recorded footage sitting around that nobody has time to watch?**
47     (multi-court hall recordings,
48     tournament days, CCTV) ? roughly how much?
49     3. Who would watch rally clips or highlights if they existed ? coaches for training?
50     players? parents?
51     4. What do you use today for any of this? (Listen for: Machaxi, VISIST, Game Theory,
52     BadPro+, just YouTube/phone.)
53     What do you like / what's missing in it?
54     5. ? **If you could hand over a full session's video and get back every rally cut out +
55     a highlight reel + a simple
56     report ? would you pay per match for that? What feels fair ? ?100, ?300, ?500 per
57     match?** (Let THEM say a number
58     first. Note their face, not just the words.)
59     6. Your hall has multiple courts running at once, right? Does that make video less
60     useful today?
61     7. Would you let us record one session here (we pay a small fee for the time) to show
62     you what the tool produces on
63     YOUR court? *(This is the Phase-2 door ? just note yes/no/maybe and who to call.)*
64
65     **After each visit, fill ONE answer sheet ? the template is
66     [FIELD_VISIT_ANSWER_SHEET.md](FIELD_VISIT_ANSWER_SHEET.md)
67     (print one per visit):** academy name, location, # courts, person spoken to + role +
68     contact, answers 1?7 (their
69     words, not yours), the most negative thing they said (required), exact quotes, your gut
70     read, and whether they're a
71     Phase-2 candidate. *(How the answers get scored and what totals trigger which decision

```

```

lives in
51     [`PMF_FIELD_SIGNALS.md`](PMF_FIELD_SIGNALS.md) ? that part is ours, not yours; just
capture honestly.)*
52
53     ---
54
55     ## Ground rules & gotchas (read twice ? this is the difference between useful and
useless)
56
57     1. **You are researching, not selling.** If they ask "how much will it cost", say
"that's exactly what he's trying to
58         figure out ? what would feel fair to you?" Never quote a price yourself.
59     2. **Past behavior beats opinions.** "Would you use video?" gets polite lies. "When did
you LAST record a session, and
60         what happened to that file?" gets the truth. Prefer the second kind of question.
61     3. **Don't promise anything.** No features, no dates, no free trials. The only thing you
may offer is the Phase-2 idea
62         (a paid recording session + free sample output) and only as "would you be open to
it".
63     4. **Write down disappointing answers verbatim.** A "no, we'd never pay for that" with a
reason is worth MORE to us
64         than five vague yeses. You're paid per completed honest visit, not per positive
answer.
65     5. **If they already use a competitor (Machaxi/VISIST/Game Theory etc.) ? goldmine.**
Ask what it does well, what it
66         doesn't, and what they pay. Spend extra time here.
67     6. **Multi-court is our favorite topic.** If they complain that video is useless because
"all the courts are in frame
68         and it's chaos" ? capture that complaint in their exact words. That's the problem we
solve.
69     7. **No recordings of people without clear permission.** In Phase 1 you record NOTHING ?
notes only. Don't photograph
70         the academy or players unless the owner offers.
71     8. **Don't oversit.** 20 minutes, thank them, leave a good impression ? we may come back
to record.
72     9. **Confidentiality:** don't describe the tech beyond the opening line, don't name
other academies' answers, and
73         don't share the answer sheets with anyone except Avi.
74
75     ---
76
77     ## Phase 2 (only for academies that said yes ? separate briefing & pay)
78
79     You coordinate a recording session: we pay the academy a small fee, set up a
phone/camera on a tripod (we provide a
80         one-page capture checklist: behind the court, elevated, whole court in frame, landscape,
1080p/60fps, don't move it),
81         record 1?2 sessions, and later return a sample highlight reel + report to the academy
for free. **Hard rules:**
82         written consent from the academy AND the adult players being recorded; **sessions with
minors are not recorded for
83         our library** ? adult sessions only; the academy gets told plainly what the footage is
for (building and demonstrating
84         the tool).
