Repo: C:\Users\avidu\Projects\badminton-highlight-indexer (branch docs/pmf-field-signals).
Review these files (read them in full):

- docs/PMF_FIELD_SIGNALS.md (NEW - hypotheses H1-H7, GREEN/AMBER/RED scoring anchors, pre-registered decision rules PROCEED/PIVOT A-C/FALSIFIED, rollup mechanics, guardrails)
- docs/FIELD_VISIT_ANSWER_SHEET.md (NEW - the per-visit capture form a non-technical field associate fills by hand)
- docs/FIELD_RESEARCH_ASSOCIATE_FLYER.md (EXISTING, lightly edited - the recruit hand-out with the 7-question script and ground rules)

Grounding docs (also read): docs/PMF_MARKET_RESEARCH.md (esp. SS6 risks and pricing anchors), docs/NEXT_STEPS.md item 5, docs/COMMERCIALIZATION.md C13 row.

Context: the owner ratified that PMF validation happens by physically visiting Bangalore badminton academies (10-15 visits by a paid non-technical field associate) and reading signals. The kit's job: make 15 visits produce a pre-registered verdict (proceed/pivot/falsified) rather than motivated reasoning. Product = KhelSutra (rally indexing + highlights from static-camera footage; wedge = messy multi-court BYO footage; serving COGS ~\$0.30-0.60/hr via Gemini).

A critic claims the following flaw in the field-validation kit. Adversarially verify by reading the actual files - try to REFUTE it. Default to refuted if the flaw is pedantic, out of scope for a 10-15-visit directional read, or already mitigated elsewhere in the kit.

CLAIM [high] Who scores G/A/R is contradictory ? and the associate cannot do it
The three docs disagree about who fills the score grid. C:\Users\avidu\Projects\badminton-highlight-indexer\docs\FIELD_VISIT_ANSWER_SHEET.md (lines 60-70) puts a 'circle one per row' GREEN/AMBER/RED grid on the paper form the associate fills, with 'anchors in PMF_FIELD_SIGNALS.md §2'. PMF_FIELD_SIGNALS.md §2 (line 37) is written second-person to the sheet-filler ('Score each hypothesis on the answer sheet... When between two grades, take the lower one'). But the flyer (FIELD_RESEARCH_ASSOCIATE_FLYER.md lines 50-51) explicitly tells the associate scoring 'is ours, not yours; just capture honestly.' On top of the contradiction, the anchors are unusable by this person: a printed paper sheet pointing to '§2 of a markdown doc' they were told not to read; anchor language requiring product knowledge they don't have ('volunteers a gap we cover (multi-court, BYO footage, price)' for H4; 'whitespace', 'Phase-2 door'); and judgment calls like distinguishing 'volunteers ??300 unprompted' from anchored agreement. An associate scoring without anchors produces noise that then feeds the pre-registered tallies directly (the rollup row in PMF_FIELD_SIGNALS.md §4 copies H1-H7 from the sheet).

Proposed fix: Pick one owner of scoring and make all three docs say it. Recommended: remove the H1-H7 score grid from the answer sheet entirely (or mark it 'OFFICE USE ? leave blank'); the associate captures verbatim answers, quotes, gut read, and Phase-2 yes/no only; the owner scores G/A/R against §2 anchors during transcription to the rollup. Delete or re-address the second-person scoring instruction in PMF_FIELD_SIGNALS.md §2 ('Score each hypothesis...' ? 'The owner scores each sheet...'). This also fixes the insider-jargon problem on the sheet (H4 'whitespace', 'Phase-2 door').

1      # C13 Field Signals ? what academy visits must tell us (and when to change course)
2
3      **Status:** ACTIVE ? the decision layer for the C13 beachhead validation
4      (owner-ratified direction, 2026-06-12: *PMF validation is handled by physically
5      visiting academies and reading signals on the ground*).
6      **Companions:** [ `FIELD_RESEARCH_ASSOCIATE_FLYER.md` ](FIELD_RESEARCH_ASSOCIATE_FLYER.md)
7      (the recruit hand-out: script + ground rules) .
8      [ `FIELD_VISIT_ANSWER_SHEET.md` ](FIELD_VISIT_ANSWER_SHEET.md) (the per-visit capture
form) .
9      [ `PMF_MARKET_RESEARCH.md` ](PMF_MARKET_RESEARCH.md) (the hypotheses under test, esp. §6).
10
11     **Why this doc exists:** the flyer collects answers; this doc fixes ? **before the
12     first visit** ? what those answers *mean* and what totals trigger which decision.
13     Pre-registering the thresholds is the honesty mechanism: it stops us from reading
14     15 ambiguous conversations as whatever we hoped to hear.
15
16     ---
17
18     ## 1. The hypotheses under test (each maps to script questions)
19
20     | ID | Hypothesis (from PMF research) | Falsified looks like | Script Q |
21     |---|---|---|---|
22     | H1 | **Recording behavior exists** ? academies already produce fixed-angle / CCTV /
multi-court footage without us | nobody records; "we'd have to start for you" | Q1 |
23     | H2 | **Dead-footage pain** ? recorded footage piles up unwatched (the indexing wedge)
| footage is small, or already gets watched | Q2 ? |
24     | H3 | **An audience exists** ? coach, player, or parent would actually consume rally
clips/reels | shrug; "who has time to watch clips" | Q3 |
25     | H4 | **Whitespace** ? incumbents (Machaxi, VISIST, Game Theory, Stupa, BadPro+) leave
a gap we fit | "we use X, it's fine, fully solved" | Q4 |
26     | H5 | **Willingness to pay per match** at a price that clears unit economics | "should
be free" / <?100 everywhere | Q5 ? |
27     | H6 | **Multi-court chaos is a felt problem** (our moat: indexing messy BYO multi-court
footage) | multi-court video already useful to them | Q6 |
28     | H7 | **Behavioral commitment** ? they'll let us record on their court (Phase-2 door) |
polite no across the board | Q7 |
29
30     Unit-economics floor behind H5: serving COGS on the Gemini path is ~$0.30?0.60 per
31     hour of video (? ?25?50/hr; 2026-06-10 quality table). A 2?3 hr session costs
32     roughly 75?150 to process, so **2300/match has real margin, ?100/match is
33     break-even-ish at retail** ? that's why the script's anchor ladder is ?100/300/500.
34
35     ## 2. Per-visit scoring ? GREEN / AMBER / RED anchors
36
37     Score each hypothesis on the answer sheet **from what they said and showed, not
38     what you inferred**. When between two grades, take the lower one.
39
```

```

40      | | GREEN (strong confirm) | AMBER (weak/mixed) | RED (disconfirm) |
41      |---|---|---|---|
42      | **H1 record** | shows or names actual setup (tripod/CCTV/phone rig) used ?monthly |
records occasionally (tournaments only) | doesn't record; no plans |
43      | **H2 dead footage** | points at real unwatched volume (?~5 hrs, "CCTV runs all day",
tournament backlog) | some footage, partially watched | no backlog exists |
44      | **H3 audience** | names WHO would watch and WHEN (e.g. "parents ask for clips", "I
review with students Mondays") | "could be useful, maybe" | no consumer identified |
45      | **H4 whitespace** | no tool today, or uses one and volunteers a gap we cover (multi-
court, BYO footage, price) | uses a competitor, mildly satisfied | competitor solves it,
satisfied, sticky |
46      | **H5 WTP** | volunteers ??300/match unprompted, or proposes a budget framing of their
own (per-student/per-month) | lands at ~?100 with hesitation | refuses to name a number / "free"
|
47      | **H6 multi-court** | complains about it in their own words before/without prompting |
agrees when asked | multi-court footage already works for them |
48      | **H7 Phase-2** | yes + gives a name/number/slot | "maybe, come back" | no |
49
50      **Weighting rule (behavior > words):** H7-GREEN and H2-GREEN are *behavioral*
51      signals and count double in your gut-read; H3/H5 answers are *talk* until a Phase-2
52      session or a real payment corroborates them. A visit with H5-GREEN but H7-RED is a
53      polite conversation, not a customer.
54
55      **Disconfirming-evidence quota:** every visit sheet must record at least one
56      verbatim *negative* quote (the thing they liked least / wouldn't pay for). If a
57      sheet has only positives, the visit gets re-done or discounted ? per the flyer's
58      ground rule 4, a reasoned "no" is worth more than five vague yeses.
59
60      ## 3. Pre-registered decision rules (n = 10?15 academies)
61
62      Counts, not percentages ? at this sample size we're reading direction, not
63      estimating proportions. Evaluate after **every 5 completed sheets** ; final call at
64      the agreed n. "GREEN" below means GREEN on that hypothesis row.
65
66      | Verdict | Trigger (pre-registered) | What we then do |
67      |---|---|---|
68      | **PROCEED ? beachhead validated** | ?6 H2-GREEN **and** ?4 H5 at ?300+ **and** ?3
H7-GREEN | Run the camera pilot at the 2?3 warmest academies; those contacts seed the UI-alpha
Wave-1 invite list (UI_ALPHA_EXECUTION_PLAN Phase R); start the paid-pilot conversation with the
single warmest |
69      | **PIVOT A ? "index the backlog" ? "record + index" service** | H2 mostly RED (<3
GREEN) but H3+H5 healthy on *fresh* recordings | The pain isn't the archive, it's that nothing
useful gets made at all ? lead with the Phase-2 recording offer; camera pilot becomes the
product wedge, not the demo |
70      | **PIVOT B ? partner/API motion** | H4 RED at ?5 academies (incumbents entrenched and
liked) | Don't fight installed hardware head-on; explore the engine/API route through whoever
owns the academy relationship (the PB Vision x PodPlay template from the 2026-06-10 audit) |
71      | **PIVOT C ? payer is the parent, not the academy** | H5 RED from owners but H3
repeatedly names parents/players asking for clips | Re-test WTP as B2C per-student reels (?/reel
to parents) with the academy as channel, not customer |
72      | **FALSIFIED ? beachhead assumption fails** | <3 academies record at all (H1) **and** 0
H7-GREEN | The "academies already record fixed-angle" premise (PMF §6 risk 1) is wrong for this
market ? revisit beachheads #2/#3 (pickleball-US, badminton Asia/Denmark) before building
further |
73
74      Mixed outcomes that match no row: write up the per-hypothesis tallies and decide
75      explicitly with the owner ? but **the tallies above get computed first**, so the
76      discussion starts from the pre-registered read, not from anecdotes.
77
78      **Competitor-intel side-channel (always-on):** any visit where a competitor is
79      named ? fill the answer sheet's competitor block (what it does, what it misses,
80      what they pay). ?3 consistent reports about one product = update
81      `PMF_MARKET_RESEARCH.md` §4 with field-verified rows (today's table is web-sourced).
82
83      ## 4. Mechanics

```

```

84
85 - One [ `FIELD_VISIT_ANSWER_SHEET.md` ](FIELD_VISIT_ANSWER_SHEET.md) per academy,
86 same day as the visit, in the associate's words + verbatim quotes.
87 - The owner (or Claude session) transcribes each sheet into one row of the rollup
88 table below (keep it in this doc or a sheet next to it); tallies and the
89 decision-rule read-out update per 5 visits.
90 - Demo asset if a conversation earns it: the real compiled reel
91 ( `output/MahadevpuraSingles_highlights.mp4` ) on a phone ? *show, never promise*
92 (flyer ground rule 3 still applies; the associate doesn't carry the demo,
93 the owner does on follow-ups).
94
95 ### Rollup table (one row per completed visit)
96
97 | # | Academy | Area | Courts | Role spoken to | H1 | H2 | H3 | H4 | H5 (?) | H6 | H7 |
Gut | Phase-2? |
98 |---|---|---|---|---|---|---|---|---|---|---|---|
99 | 1 | | | | | | | | | | | |
100
101 ### Tally ? decision read-out (recompute per 5 visits)
102
103 | Metric | Count | Threshold in play |
104 |---|---|---|
105 | H2 GREEN (dead footage) | /n | ?6 ? PROCEED leg; <3 ? PIVOT A leg |
106 | H5 at ?300+ | /n | ?4 ? PROCEED leg |
107 | H7 GREEN (Phase-2 yes + contact) | /n | ?3 ? PROCEED leg; 0 ? FALSIFIED leg |
108 | H4 RED (incumbent satisfied) | /n | ?5 ? PIVOT B |
109 | H1 any recording | /n | <3 ? FALSIFIED leg |
110 | H5 RED + H3 names parents | /n | recurring ? PIVOT C |
111
112 ## 5. Guardrails that bind the field work
113
114 - **Phase 1 records nothing** ? notes only (flyer rule 7).
115 - **Phase 2 consent rules are hard:** written consent from the academy AND adult
116 players; **sessions with minors are never recorded for our library** (training-pool
117 guardrail, CLAUDE.md); the academy is told plainly what the footage is for.
118 - Answer sheets contain personal contact details ? they stay between the associate
119 and the owner; transcribe to the rollup without phone numbers.
120

1 # Field Visit Answer Sheet ? one per academy (fill the same day)
2
3 > Print one per planned visit. Write THEIR words, not yours. A clear "no, because?"
4 > is a *good* sheet. Companion script: `FIELD_RESEARCH_ASSOCIATE_FLYER.md`.
5 > Scoring anchors (G/A/R): `PMF_FIELD_SIGNALS.md` §2.
6
7 ## Visit basics
8
9 | | |
10 |---|---|
11 | Date / time | |
12 | Academy name | |
13 | Area (neighbourhood) | |
14 | # courts in the hall | |
15 | Spoke to (name + role) | |
16 | Contact (phone/WhatsApp) ? *only if offered* | |
17 | How long the conversation ran | |
18
19 ## The seven questions ? their answers (verbatim where possible)
20
21 **Q1 ? Do they record sessions/matches today? How (phone / tripod / CCTV / hired)?**
22
23 >
24

```

```

25      **Q2 ? ? Footage sitting around that nobody watches? Roughly how much, and from what?**
26
27      >
28
29      **Q3 ? Who would watch rally clips/highlights (coach / players / parents)? When?**
30
31      >
32
33      **Q4 ? What do they use today (Machaxi / VISIST / Game Theory / BadPro+ / none)?
34      What's good, what's missing, what does it cost them?**
35
36      >
37
38      **Q5 ? ? Would they pay per match for rally cuts + reel + report? What number did
39      THEY say first (?)? What was their face doing?**
40
41      >
42
43      **Q6 ? Multiple courts in frame ? does that make video useless today? Their words:**
44
45      >
46
47      **Q7 ? Open to a paid recording session on their court? (yes / maybe / no ? and who
48      to call)**
49
50      >
51
52      ## Required: the most negative thing they said (verbatim)
53
54      >
55
56      ## Best quotes (anything vivid, in their words)
57
58      >
59
60      ## Scores (circle one per row ? anchors in PMF_FIELD_SIGNALS.md §2; when torn, score
61      lower)
62      | Hypothesis | Score |
63      |---|---|
64      | H1 recording behavior | GREEN / AMBER / RED |
65      | H2 dead footage | GREEN / AMBER / RED |
66      | H3 audience | GREEN / AMBER / RED |
67      | H4 whitespace | GREEN / AMBER / RED |
68      | H5 willingness to pay ? their ? number: _____ | GREEN / AMBER / RED |
69      | H6 multi-court pain | GREEN / AMBER / RED |
70      | H7 Phase-2 door | GREEN / AMBER / RED |
71
72      ## Competitor block (only if they named one)
73
74      | | |
75      |---|---|
76      | Product | |
77      | What it does well (their words) | |
78      | What it misses (their words) | |
79      | What they pay | |
80
81      ## Your gut read (circle): COLD · POLITE · CURIOUS · EAGER
82
83      ## Phase-2 candidate? (circle): YES ? call: _____ · MAYBE · NO
84
85      ## Anything else worth knowing (layout, lighting, camera positions you noticed, who
86      really decides)
87      >

```

5. user (2026-06-12T14:39:35.374Z)

```

1      # Temporary Engagement: Field Research Associate (Sports-Tech, Bengaluru)
2
3      **Duration:** ~2?3 weeks, part-time (flexible hours, mostly afternoons/evenings when
academies are active)
4      **Location:** Bengaluru ? in-person visits to badminton academies
5      **Compensation:** ? ___ per completed academy visit + travel reimbursement *(discussed
individually)*
6      **Reports to:** Avi (phone/WhatsApp: ___ )
7
8      ---
9
10     ## The gig in one paragraph
11
12     We're building an AI tool that takes ordinary practice/match video from a badminton
academy and automatically finds
13     every rally, builds highlight reels, and generates match reports. Before building
further, we need honest, on-the-ground
14     answers from real academies about how they record, what they'd use, and what they'd pay.
**Your job: visit 10?15 good
15     academies, have a friendly 15?20 minute conversation with the owner/head coach using the
script below, and write down
16     what they actually say.** No selling. No tech knowledge needed. If a conversation goes
well, there's a Phase-2 follow-up
17     (coordinating a paid video-recording session) with additional compensation.
18
19     ---
20
21     ## Phase 1 ? The conversation (what you actually do)
22
23     **Who to talk to:** the academy owner or head coach ? the person who decides what the
academy spends money on.
24     If you get a junior coach, be friendly, gather what you can, and ask when the owner is
available.
25
26     **Opening (keep it this honest):**
27     > "Hi, I'm helping a Bengaluru engineer who's building an AI tool for badminton
academies ? it takes normal practice
28     > video and automatically cuts it into rallies and highlights. He asked me to talk to a
few serious academies to
29     > understand how you work with video today. Could I ask you a few questions? Takes 15
minutes, and we're not selling
30     > anything today."
31
32     **The questions (ask in this order; the starred ones matter most):**
33
34     1. Do you ever video-record sessions or matches here? How ? phone, tripod, CCTV, a hired
person?
35     2. ? **Do you have recorded footage sitting around that nobody has time to watch?**
(multi-court hall recordings,
36     tournament days, CCTV) ? roughly how much?
37     3. Who would watch rally clips or highlights if they existed ? coaches for training?
players? parents?
38     4. What do you use today for any of this? (Listen for: Machaxi, VISIST, Game Theory,
BadPro+, just YouTube/phone.)
39     What do you like / what's missing in it?
40     5. ? **If you could hand over a full session's video and get back every rally cut out +
a highlight reel + a simple
41     report ? would you pay per match for that? What feels fair ? ?100, ?300, ?500 per
match?** (Let THEM say a number
42     first. Note their face, not just the words.)
43     6. Your hall has multiple courts running at once, right? Does that make video less

```

useful today?

```
44      7. Would you let us record one session here (we pay a small fee for the time) to show
you what the tool produces on
45      YOUR court? *(This is the Phase-2 door ? just note yes/no/maybe and who to call.)*
46
47      **After each visit, fill ONE answer sheet ? the template is
[ `FIELD_VISIT_ANSWER_SHEET.md` ](FIELD_VISIT_ANSWER_SHEET.md)
48      (print one per visit):** academy name, location, # courts, person spoken to + role +
contact, answers 1?7 (their
49      words, not yours), the most negative thing they said (required), exact quotes, your gut
read, and whether they're a
50      Phase-2 candidate. *(How the answers get scored and what totals trigger which decision
lives in
51      [ `PMF_FIELD_SIGNALS.md` ](PMF_FIELD_SIGNALS.md) ? that part is ours, not yours; just
capture honestly.)*
52
53      ---
54
55      ## Ground rules & gotchas (read twice ? this is the difference between useful and
useless)
56
57      1. **You are researching, not selling.** If they ask "how much will it cost", say
"that's exactly what he's trying to
58      figure out ? what would feel fair to you?" Never quote a price yourself.
59      2. **Past behavior beats opinions.** "Would you use video?" gets polite lies. "When did
you LAST record a session, and
60      what happened to that file?" gets the truth. Prefer the second kind of question.
61      3. **Don't promise anything.** No features, no dates, no free trials. The only thing you
may offer is the Phase-2 idea
62      (a paid recording session + free sample output) and only as "would you be open to
it".
63      4. **Write down disappointing answers verbatim.** A "no, we'd never pay for that" with a
reason is worth MORE to us
64      than five vague yeses. You're paid per completed honest visit, not per positive
answer.
65      5. **If they already use a competitor (Machaxi/VISIST/Game Theory etc.) ? goldmine.**
Ask what it does well, what it
66      doesn't, and what they pay. Spend extra time here.
67      6. **Multi-court is our favorite topic.** If they complain that video is useless because
"all the courts are in frame
68      and it's chaos" ? capture that complaint in their exact words. That's the problem we
solve.
69      7. **No recordings of people without clear permission.** In Phase 1 you record NOTHING ?
notes only. Don't photograph
70      the academy or players unless the owner offers.
71      8. **Don't oversit.** 20 minutes, thank them, leave a good impression ? we may come back
to record.
72      9. **Confidentiality:** don't describe the tech beyond the opening line, don't name
other academies' answers, and
73      don't share the answer sheets with anyone except Avi.
74
75      ---
76
77      ## Phase 2 (only for academies that said yes ? separate briefing & pay)
78
79      You coordinate a recording session: we pay the academy a small fee, set up a
phone/camera on a tripod (we provide a
80      one-page capture checklist: behind the court, elevated, whole court in frame, landscape,
1080p/60fps, don't move it),
81      record 1?2 sessions, and later return a sample highlight reel + report to the academy
for free. **Hard rules:**
82      written consent from the academy AND the adult players being recorded; **sessions with
minors are not recorded for
83      our library** ? adult sessions only; the academy gets told plainly what the footage is
for (building and demonstrating
```

84 the tool).

53-4. ****Multisport thread:**** ingest Roora pickleball/TT CSVs (``import-local --normalize``);
merged-prototype LOVO across
54- badminton+TT once TT has ?3 matches; identify a clean pickleball ball detector. ? TT-on-
WASB serving stays gated
55- by C3 (provenance multiplies per sport).
56:5. ****PMF validation (cheaper than any engineering month):**** C13 academy interviews (+ the two
added questions:
57- "multi-court footage nobody watches?" / "pay per-match to index it?"); camera pilot at the
warmest 2-3 academies
58- (consent at capture; demo served via the Gemini path or human-polish ? the reel pattern
exists:
59: ``output/MahadevpuraSingles_highlights.mp4``). ****Field kit COMPLETE (2026-06-12, owner
ratified the
60: physical-visit approach):**** ``docs/FIELD_RESEARCH_ASSOCIATE_FLYER.md`` (recruit hand-out:
script, ground rules,
61: Phase-2 consent; owner fills ?/contact placeholders) + ``docs/FIELD_VISIT_ANSWER_SHEET.md``
(per-visit capture
62: form) + ``docs/PMF_FIELD_SIGNALS.md`` (G/A/R scoring anchors + ****pre-registered decision
rules**** ? PROCEED /
63: PIVOT A-C / FALSIFIED thresholds fixed before the first visit).
64-6. ****Housekeeping:**** ~~rotate the Gemini API key~~ ****DONE 2026-06-10**** (owner-verified
working; confirm old-key
65- deletion in AI Studio); ****rename repo off "badminton"**** (owner action,
66- in BACKLOG); collector=SoR confirmation; off-peak niceties: none pending ? the battery
completed.

200-

201-## Changelog

202-

203-- **2026-06-07** ? Added the market-research-of-record (`PMF\_MARKET\_RESEARCH.md`):

204: ranked beachhead (India badminton academies #1), pricing benchmarks, and a C13

205- "beachhead validation" workstream. Wired the summary into §6.

206-- **2026-06-07** ? Created this living tracker. Merged the 2026-05-30 monetization

207- audit + the commercial-readiness review. **Refreshed since the audit:** C1 AGPL

208- removal now ? shipped (was the #1 blocker); added C5 as a ? (output is still H.264,

8. user (2026-06-12T14:42:44.671Z)

Structured output provided successfully

9. assistant (2026-06-12T14:42:49.032Z)

Verification complete ? the claim is refuted (with a low-severity labeling nit acknowledged),
and the structured verdict has been returned.
