## Transcript

### 1. user (2026-06-12T14:40:39.855Z)

Repo: C:\Users\avidu\Projects\badminton-highlight-indexer (branch docs/pmf-field-signals).

Review these files (read them in full):

- docs/PMF\_FIELD\_SIGNALS.md (NEW - hypotheses H1-H7, GREEN/AMBER/RED scoring anchors, pre-registered decision rules PROCEED/PIVOT A-C/FALSIFIED, rollup mechanics, guardrails)
- docs/FIELD\_VISIT\_ANSWER\_SHEET.md (NEW - the per-visit capture form a non-technical field associate fills by hand)
- docs/FIELD\_RESEARCH\_ASSOCIATE\_FLYER.md (EXISTING, lightly edited - the recruit hand-out with the 7-question script and ground rules)

Grounding docs (also read): docs/PMF\_MARKET\_RESEARCH.md (esp. SS6 risks and pricing anchors), docs/NEXT\_STEPS.md item 5, docs/COMMERCIALIZATION.md C13 row.

Context: the owner ratified that PMF validation happens by physically visiting Bangalore badminton academies (10-15 visits by a paid non-technical field associate) and reading signals. The kit's job: make 15 visits produce a pre-registered verdict (proceed/pivot/falsified) rather than motivated reasoning. Product = KhelSutra (rally indexing + highlights from static-camera footage; wedge = messy multi-court BYO footage; serving COGS ~\$0.30-0.60/hr via Gemini).

A critic claims the following flaw in the field-validation kit. Adversarially verify by reading the actual files - try to REFUTE it. Default to refuted if the flaw is pedantic, out of scope for a 10-15-visit directional read, or already mitigated elsewhere in the kit.

CLAIM [low] Q4 box duplicates the competitor block ? the associate will fill one and skip the other

Q4 on the sheet (lines 33-36) asks what's good / what's missing / what it costs; the competitor block (lines 72-79) asks the identical three things again. Hand-writing the same answers twice right after a visit invites one of the two being blank, and the owner won't know which one is authoritative.

Proposed fix: In the Q4 box on FIELD\_VISIT\_ANSWER\_SHEET.md, write only what they use and any non-product detail; add the note 'if they named a product ? details go in the Competitor block below, not here.'

```
1      # Field Visit Answer Sheet ? one per academy (fill the same day)  
2  
3      > Print one per planned visit. Write THEIR words, not yours. A clear "no, because?"  
4      > is a *good* sheet. Companion script: `FIELD_RESEARCH_ASSOCIATE_FLYER.md`.  
5      > Scoring anchors (G/A/R): `PMF_FIELD_SIGNALS.md` $2.  
6  
7      ## Visit basics
```

```

8
9 | | |
10 |---|---|
11 | Date / time | |
12 | Academy name | |
13 | Area (neighbourhood) | |
14 | # courts in the hall | |
15 | Spoke to (name + role) | |
16 | Contact (phone/WhatsApp) ? *only if offered* | |
17 | How long the conversation ran | |
18
19 ## The seven questions ? their answers (verbatim where possible)
20
21 **Q1 ? Do they record sessions/matches today? How (phone / tripod / CCTV / hired)?**
22
23 >
24
25 **Q2 ? ? Footage sitting around that nobody watches? Roughly how much, and from what?**
26
27 >
28
29 **Q3 ? Who would watch rally clips/highlights (coach / players / parents)? When?**
30
31 >
32
33 **Q4 ? What do they use today (Machaxi / VISIST / Game Theory / BadPro+ / none)?
34 What's good, what's missing, what does it cost them?**
35
36 >
37
38 **Q5 ? ? Would they pay per match for rally cuts + reel + report? What number did
39 THEY say first (?)? What was their face doing?**
40
41 >
42
43 **Q6 ? Multiple courts in frame ? does that make video useless today? Their words:**
44
45 >
46
47 **Q7 ? Open to a paid recording session on their court? (yes / maybe / no ? and who
48 to call)**
49
50 >
51
52 ## Required: the most negative thing they said (verbatim)
53
54 >
55
56 ## Best quotes (anything vivid, in their words)
57
58 >
59
60 ## Scores (circle one per row ? anchors in PMF_FIELD_SIGNALS.md §2; when torn, score
61 lower)
62 | Hypothesis | Score |
63 |---|---|
64 | H1 recording behavior | GREEN / AMBER / RED |
65 | H2 dead footage | GREEN / AMBER / RED |
66 | H3 audience | GREEN / AMBER / RED |
67 | H4 whitespace | GREEN / AMBER / RED |
68 | H5 willingness to pay ? their ? number: _____ | GREEN / AMBER / RED |
69 | H6 multi-court pain | GREEN / AMBER / RED |
70 | H7 Phase-2 door | GREEN / AMBER / RED |
71

```

```

72     ## Competitor block (only if they named one)
73
74     | | |
75     |---|---|
76     | Product | |
77     | What it does well (their words) | |
78     | What it misses (their words) | |
79     | What they pay | |
80
81     ## Your gut read (circle): COLD · POLITE · CURIOUS · EAGER
82
83     ## Phase-2 candidate? (circle): YES ? call: _____ · MAYBE · NO
84
85     ## Anything else worth knowing (layout, lighting, camera positions you noticed, who
really decides)
86
87     >
88

```

```

1     # C13 Field Signals ? what academy visits must tell us (and when to change course)
2
3     **Status:** ACTIVE ? the decision layer for the C13 beachhead validation
4     (owner-ratified direction, 2026-06-12: *PMF validation is handled by physically
5     visiting academies and reading signals on the ground*).
6     **Companions:** [`FIELD_RESEARCH_ASSOCIATE_FLYER.md`](FIELD_RESEARCH_ASSOCIATE_FLYER.md)
7     (the recruit hand-out: script + ground rules) ·
8     [`FIELD_VISIT_ANSWER_SHEET.md`](FIELD_VISIT_ANSWER_SHEET.md) (the per-visit capture
form) ·
9     [`PMF_MARKET_RESEARCH.md`](PMF_MARKET_RESEARCH.md) (the hypotheses under test, esp. §6).
10
11     **Why this doc exists:** the flyer collects answers; this doc fixes ? **before the
12     first visit** ? what those answers *mean* and what totals trigger which decision.
13     Pre-registering the thresholds is the honesty mechanism: it stops us from reading
14     15 ambiguous conversations as whatever we hoped to hear.
15
16     ---
17
18     ## 1. The hypotheses under test (each maps to script questions)
19
20     | ID | Hypothesis (from PMF research) | Falsified looks like | Script Q |
21     |---|---|---|---|
22     | H1 | **Recording behavior exists** ? academies already produce fixed-angle / CCTV /
multi-court footage without us | nobody records; "we'd have to start for you" | Q1 |
23     | H2 | **Dead-footage pain** ? recorded footage piles up unwatched (the indexing wedge)
| footage is small, or already gets watched | Q2 ? |
24     | H3 | **An audience exists** ? coach, player, or parent would actually consume rally
clips/reels | shrug; "who has time to watch clips" | Q3 |
25     | H4 | **Whitespace** ? incumbents (Machaxi, VISIST, Game Theory, Stupa, BadPro+) leave
a gap we fit | "we use X, it's fine, fully solved" | Q4 |
26     | H5 | **Willingness to pay per match** at a price that clears unit economics | "should
be free" / <?100 everywhere | Q5 ? |
27     | H6 | **Multi-court chaos is a felt problem** (our moat: indexing messy BYO multi-court
footage) | multi-court video already useful to them | Q6 |
28     | H7 | **Behavioral commitment** ? they'll let us record on their court (Phase-2 door) |
polite no across the board | Q7 |
29
30     Unit-economics floor behind H5: serving COGS on the Gemini path is ~$0.30?0.60 per
31     hour of video (? 25?50/hr; 2026-06-10 quality table). A 2?3 hr session costs
32     roughly 75?150 to process, so **?300/match has real margin, ?100/match is
33     break-even-ish at retail** ? that's why the script's anchor ladder is ?100/300/500.
34
35     ## 2. Per-visit scoring ? GREEN / AMBER / RED anchors
36

```

37 Score each hypothesis on the answer sheet **\*\*from what they said and showed, not**  
38 **what you inferred\*\***. When between two grades, take the lower one.

39

40 | | GREEN (strong confirm) | AMBER (weak/mixed) | RED (disconfirm) |  
41 |---|---|---|---|

42 | **\*\*H1 record\*\*** | shows or names actual setup (tripod/CCTV/phone rig) used ?monthly |  
records occasionally (tournaments only) | doesn't record; no plans |

43 | **\*\*H2 dead footage\*\*** | points at real unwatched volume (?~5 hrs, "CCTV runs all day",  
tournament backlog) | some footage, partially watched | no backlog exists |

44 | **\*\*H3 audience\*\*** | names WHO would watch and WHEN (e.g. "parents ask for clips", "I  
review with students Mondays") | "could be useful, maybe" | no consumer identified |

45 | **\*\*H4 whitespace\*\*** | no tool today, or uses one and volunteers a gap we cover (multi-  
court, BYO footage, price) | uses a competitor, mildly satisfied | competitor solves it,  
satisfied, sticky |

46 | **\*\*H5 WTP\*\*** | volunteers ??300/match unprompted, or proposes a budget framing of their  
own (per-student/per-month) | lands at ~?100 with hesitation | refuses to name a number / "free"  
|

47 | **\*\*H6 multi-court\*\*** | complains about it in their own words before/without prompting |  
agrees when asked | multi-court footage already works for them |

48 | **\*\*H7 Phase-2\*\*** | yes + gives a name/number/slot | "maybe, come back" | no |

49

50 **\*\*Weighting rule (behavior > words):\*\*** H7-GREEN and H2-GREEN are **\*behavioral\***  
51 signals and count double in your gut-read; H3/H5 answers are **\*talk\*** until a Phase-2  
52 session or a real payment corroborates them. A visit with H5-GREEN but H7-RED is a  
53 polite conversation, not a customer.

54

55 **\*\*Disconfirming-evidence quota:\*\*** every visit sheet must record at least one  
56 verbatim **\*negative\*** quote (the thing they liked least / wouldn't pay for). If a  
57 sheet has only positives, the visit gets re-done or discounted ? per the flyer's  
58 ground rule 4, a reasoned "no" is worth more than five vague yeses.

59

60 **## 3. Pre-registered decision rules (n = 10?15 academies)**

61

62 Counts, not percentages ? at this sample size we're reading direction, not  
63 estimating proportions. Evaluate after **\*\*every 5 completed sheets\*\***; final call at  
64 the agreed n. "GREEN" below means GREEN on that hypothesis row.

65

66 | Verdict | Trigger (pre-registered) | What we then do |  
67 |---|---|---|

68 | **\*\*PROCEED ? beachhead validated\*\*** | ?6 H2-GREEN **\*\*and\*\*** ?4 H5 at ?300+ **\*\*and\*\*** ?3  
H7-GREEN | Run the camera pilot at the 2?3 warmest academies; those contacts seed the UI-alpha  
Wave-1 invite list (UI\_ALPHA\_EXECUTION\_PLAN Phase R); start the paid-pilot conversation with the  
single warmest |

69 | **\*\*PIVOT A ? "index the backlog" ? "record + index" service\*\*** | H2 mostly RED (<3  
GREEN) but H3+H5 healthy on **\*fresh\*** recordings | The pain isn't the archive, it's that nothing  
useful gets made at all ? lead with the Phase-2 recording offer; camera pilot becomes the  
product wedge, not the demo |

70 | **\*\*PIVOT B ? partner/API motion\*\*** | H4 RED at ?5 academies (incumbents entrenched and  
liked) | Don't fight installed hardware head-on; explore the engine/API route through whoever  
owns the academy relationship (the PB Vision x PodPlay template from the 2026-06-10 audit) |

71 | **\*\*PIVOT C ? payer is the parent, not the academy\*\*** | H5 RED from owners but H3  
repeatedly names parents/players asking for clips | Re-test WTP as B2C per-student reels (?/reel  
to parents) with the academy as channel, not customer |

72 | **\*\*FALSIFIED ? beachhead assumption fails\*\*** | <3 academies record at all (H1) **\*\*and\*\*** 0  
H7-GREEN | The "academies already record fixed-angle" premise (PMF §6 risk 1) is wrong for this  
market ? revisit beachheads #2/#3 (pickleball-US, badminton Asia/Denmark) before building  
further |

73

74 Mixed outcomes that match no row: write up the per-hypothesis tallies and decide  
75 explicitly with the owner ? but **\*\*the tallies above get computed first\*\***, so the  
76 discussion starts from the pre-registered read, not from anecdotes.

77

78 **\*\*Competitor-intel side-channel (always-on):\*\*** any visit where a competitor is  
79 named ? fill the answer sheet's competitor block (what it does, what it misses,  
80 what they pay). ?3 consistent reports about one product = update

```

81 `PMF_MARKET_RESEARCH.md` $4 with field-verified rows (today's table is web-sourced).
82
83 ## 4. Mechanics
84
85 - One [`FIELD_VISIT_ANSWER_SHEET.md`](FIELD_VISIT_ANSWER_SHEET.md) per academy,
86 same day as the visit, in the associate's words + verbatim quotes.
87 - The owner (or Claude session) transcribes each sheet into one row of the rollup
88 table below (keep it in this doc or a sheet next to it); tallies and the
89 decision-rule read-out update per 5 visits.
90 - Demo asset if a conversation earns it: the real compiled reel
91 (`output/MahadevpuraSingles_highlights.mp4`) on a phone ? *show, never promise*
92 (flyer ground rule 3 still applies; the associate doesn't carry the demo,
93 the owner does on follow-ups).
94
95 ### Rollup table (one row per completed visit)
96
97 | # | Academy | Area | Courts | Role spoken to | H1 | H2 | H3 | H4 | H5 (?) | H6 | H7 |
Gut | Phase-2? |
98 |---|---|---|---|---|---|---|---|---|---|---|---|
99 | 1 | | | | | | | | | | | |
100
101 ### Tally ? decision read-out (recompute per 5 visits)
102
103 | Metric | Count | Threshold in play |
104 |---|---|---|
105 | H2 GREEN (dead footage) | /n | ?6 ? PROCEED leg; <3 ? PIVOT A leg |
106 | H5 at ?300+ | /n | ?4 ? PROCEED leg |
107 | H7 GREEN (Phase-2 yes + contact) | /n | ?3 ? PROCEED leg; 0 ? FALSIFIED leg |
108 | H4 RED (incumbent satisfied) | /n | ?5 ? PIVOT B |
109 | H1 any recording | /n | <3 ? FALSIFIED leg |
110 | H5 RED + H3 names parents | /n | recurring ? PIVOT C |
111
112 ## 5. Guardrails that bind the field work
113
114 - **Phase 1 records nothing** ? notes only (flyer rule 7).
115 - **Phase 2 consent rules are hard:** written consent from the academy AND adult
116 players; **sessions with minors are never recorded for our library** (training-pool
117 guardrail, CLAUDE.md); the academy is told plainly what the footage is for.
118 - Answer sheets contain personal contact details ? they stay between the associate
119 and the owner; transcribe to the rollup without phone numbers.
120

```

## 5. user (2026-06-12T14:40:56.894Z)

```

1 # Temporary Engagement: Field Research Associate (Sports-Tech, Bengaluru)
2
3 **Duration:** ~2?3 weeks, part-time (flexible hours, mostly afternoons/evenings when
academies are active)
4 **Location:** Bengaluru ? in-person visits to badminton academies
5 **Compensation:** ? ___ per completed academy visit + travel reimbursement *(discussed
individually)*
6 **Reports to:** Avi (phone/WhatsApp: ___ )
7
8 ---
9
10 ## The gig in one paragraph
11
12 We're building an AI tool that takes ordinary practice/match video from a badminton
academy and automatically finds
13 every rally, builds highlight reels, and generates match reports. Before building
further, we need honest, on-the-ground
14 answers from real academies about how they record, what they'd use, and what they'd pay.
**Your job: visit 10?15 good
15 academies, have a friendly 15?20 minute conversation with the owner/head coach using the
script below, and write down

```

16        what they actually say.\*\* No selling. No tech knowledge needed. If a conversation goes well, there's a Phase-2 follow-up

17        (coordinating a paid video-recording session) with additional compensation.

18

19        ---

20

21        ## Phase 1 ? The conversation (what you actually do)

22

23        \*\*Who to talk to:\*\* the academy owner or head coach ? the person who decides what the academy spends money on.

24        If you get a junior coach, be friendly, gather what you can, and ask when the owner is available.

25

26        \*\*Opening (keep it this honest):\*\*

27        > "Hi, I'm helping a Bengaluru engineer who's building an AI tool for badminton academies ? it takes normal practice

28        > video and automatically cuts it into rallies and highlights. He asked me to talk to a few serious academies to

29        > understand how you work with video today. Could I ask you a few questions? Takes 15 minutes, and we're not selling

30        > anything today."

31

32        \*\*The questions (ask in this order; the starred ones matter most):\*\*

33

34        1. Do you ever video-record sessions or matches here? How ? phone, tripod, CCTV, a hired person?

35        2. ? \*\*Do you have recorded footage sitting around that nobody has time to watch?\*\* (multi-court hall recordings,

36        tournament days, CCTV) ? roughly how much?

37        3. Who would watch rally clips or highlights if they existed ? coaches for training? players? parents?

38        4. What do you use today for any of this? (Listen for: Machaxi, VISIST, Game Theory, BadPro+, just YouTube/phone.)

39        What do you like / what's missing in it?

40        5. ? \*\*If you could hand over a full session's video and get back every rally cut out + a highlight reel + a simple

41        report ? would you pay per match for that? What feels fair ? ?100, ?300, ?500 per match?\*\* (Let THEM say a number

42        first. Note their face, not just the words.)

43        6. Your hall has multiple courts running at once, right? Does that make video less useful today?

44        7. Would you let us record one session here (we pay a small fee for the time) to show you what the tool produces on

45        YOUR court? \*(This is the Phase-2 door ? just note yes/no/maybe and who to call.)\*

46

47        \*\*After each visit, fill ONE answer sheet ? the template is

48        [FIELD\_VISIT\_ANSWER\_SHEET.md](FIELD\_VISIT\_ANSWER\_SHEET.md)

49        (print one per visit):\*\* academy name, location, # courts, person spoken to + role + contact, answers 1?7 (their

50        words, not yours), the most negative thing they said (required), exact quotes, your gut read, and whether they're a

51        Phase-2 candidate. \*(How the answers get scored and what totals trigger which decision lives in

52        [PMF\_FIELD\_SIGNALS.md](PMF\_FIELD\_SIGNALS.md) ? that part is ours, not yours; just capture honestly.)\*

53        ---

54

55        ## Ground rules & gotchas (read twice ? this is the difference between useful and useless)

56

57        1. \*\*You are researching, not selling.\*\* If they ask "how much will it cost", say "that's exactly what he's trying to

58        figure out ? what would feel fair to you?" Never quote a price yourself.

59        2. \*\*Past behavior beats opinions.\*\* "Would you use video?" gets polite lies. "When did

you LAST record a session, and

60           what happened to that file?" gets the truth. Prefer the second kind of question.

61       3. **\*\*Don't promise anything.\*\*** No features, no dates, no free trials. The only thing you

may offer is the Phase-2 idea

62           (a paid recording session + free sample output) and only as "would you be open to

it".

63       4. **\*\*Write down disappointing answers verbatim.\*\*** A "no, we'd never pay for that" with a

reason is worth MORE to us

64           than five vague yeses. You're paid per completed honest visit, not per positive

answer.

65       5. **\*\*If they already use a competitor (Machaxi/VISIST/Game Theory etc.) ? goldmine.\*\***

Ask what it does well, what it

66           doesn't, and what they pay. Spend extra time here.

67       6. **\*\*Multi-court is our favorite topic.\*\*** If they complain that video is useless because

"all the courts are in frame

68           and it's chaos" ? capture that complaint in their exact words. That's the problem we

solve.

69       7. **\*\*No recordings of people without clear permission.\*\*** In Phase 1 you record NOTHING ?

notes only. Don't photograph

70           the academy or players unless the owner offers.

71       8. **\*\*Don't oversit.\*\*** 20 minutes, thank them, leave a good impression ? we may come back

to record.

72       9. **\*\*Confidentiality:\*\*** don't describe the tech beyond the opening line, don't name

other academies' answers, and

73           don't share the answer sheets with anyone except Avi.

74

75       ---

76

77       **## Phase 2 (only for academies that said yes ? separate briefing & pay)**

78

79       You coordinate a recording session: we pay the academy a small fee, set up a

phone/camera on a tripod (we provide a

80           one-page capture checklist: behind the court, elevated, whole court in frame, landscape,

1080p/60fps, don't move it),

81           record 12 sessions, and later return a sample highlight reel + report to the academy

for free. **\*\*Hard rules:\*\***

82           written consent from the academy AND the adult players being recorded; **\*\*sessions with**

minors are not recorded for

83           our library\*\* ? adult sessions only; the academy gets told plainly what the footage is

for (building and demonstrating

84           the tool).

85

86       ---

87

88       **## Interested?**

89

90       Message Avi at \_\_\_\_ with "FIELD RESEARCH" and your availability. First 2 visits are

paired (you + Avi or a phone

91           walkthrough) so you're never improvising.

92

## 6. user (2026-06-12T14:42:12.453Z)

Structured output provided successfully

## 7. assistant (2026-06-12T14:42:20.011Z)

Verification complete ? the claim is real at low severity: the Q4/competitor-block duplication is textually exact and undisambiguated, but the kit's owner-transcription mechanics and the conditional block cap the damage at minor friction with no path to a distorted verdict.
