Visual QA on a generated badminton highlight reel.

Reel: "C:/Users/avidu/Projects/badminton-highlight-indexer/.claude/worktrees/pr-stitch/output/boxhill17_gemini_reels/GX010141_1080p - Highlights.mp4" (expected 1920x1080).

Use Bash + Read:

```
1. `ffprobe -v error -select_streams v:0 -show_entries stream=width,height -of csv=p=0  
"C:/Users/avidu/Projects/badminton-highlight-indexer/.claude/worktrees/pr-stitch/output/boxhill17_gemini_reels/GX010141_1080p - Highlights.mp4"` for resolution.  
2. `ffprobe -v error -show_entries format=duration -of csv=p=0  
"C:/Users/avidu/Projects/badminton-highlight-indexer/.claude/worktrees/pr-stitch/output/boxhill17_gemini_reels/GX010141_1080p - Highlights.mp4"` for duration.  
3. Extract ONE frame ~40% through to a UNIQUE temp PNG (downscale to 960 wide):  
`ffmpeg -y -hide_banner -loglevel error -ss <0.4*duration> -i  
"C:/Users/avidu/Projects/badminton-highlight-indexer/.claude/worktrees/pr-stitch/output/boxhill17_gemini_reels/GX010141_1080p - Highlights.mp4" -frames:v 1 -vf  
scale=960:-1 "C:/Users/avidu/Projects/badminton-highlight-indexer/.claude/worktrees/boxhill17/output/_qa_7.png"`  
4. Read "C:/Users/avidu/Projects/badminton-highlight-indexer/.claude/worktrees/boxhill17/output/_qa_7.png" (an image ? you will see it). Judge: is  
the bottom-right "Generated by Khelsutra.guru" watermark VISIBLY burned in? Is the text exactly  
that? Is it a real badminton court/rally (not black/garbage)?  
5. Delete the temp PNG.
```

Report for label "gemini-GX010141". resolution_ok = (width==1920 && height==1080). Be strict: watermark_visible=true ONLY if you actually SEE the text.

I'll run the QA checks on this badminton highlight reel. Let me start with the ffprobe checks and frame extraction.

Frame extracted. Now let me view it.

8. assistant (2026-06-17T16:53:27.671Z)

The frame shows a clear indoor badminton court with green/red flooring, nets, and players mid-rally ? a real rally, not black/garbage. In the bottom-right corner I can read the watermark text "Generated by Khelsutra.guru" burned into the frame. Let me delete the temp PNG.
