You are a professional Indonesian (Bahasa Indonesia) localizer for KhelSutra (badminton highlights, invite-only alpha, Bengaluru). Localize the Request-Access form for a NON-technical coach/parent ? warm, plain, trustworthy.

SOURCE ? English, keyed by dotted key (translate ALL 26):

```
{
  "site.join.sending": "Sending?",
  "site.join.title": "Get into the KhelSutra alpha",
  "site.join.intro": "Invite-only. Tell us a little about your setup ? it helps us get you the best results, and shapes what we build next.",
  "site.join.teaser": "<span aria-hidden=\"true\">?</span> Sign up to watch the tool in action ? and a 30-second sample reel it made ? the moment you're in.",
  "site.join.segLabel": "I'm a?",
  "site.join.segAcademy": "Coaching academy / club",
  "site.join.segIndividual": "Individual player",
  "site.join.name": "Name",
  "site.join.email": "Email",
  "site.join.emailHint": "(so we can reach you)",
  "site.join.city": "City",
  "site.join.optional": "(optional)",
  "site.join.orgName": "Academy / club name",
  "site.join.courtsLabel": "How many courts do you record?",
  "site.join.courtsSelect": "Select?",
  "site.join.courts1": "1 court",
  "site.join.courts2to4": "2?4 courts",
  "site.join.courts5plus": "5+ courts",
  "site.join.storageGdrive": "Google Drive",
  "site.join.storageOnedrive": "OneDrive / Microsoft 365",
  "site.join.storageDropbox": "Dropbox",
  "site.join.message": "Anything else?",
  "site.join.messageHint": "(how you record, what you'd want?)",
  "site.join.consent": "Okay to email me about the KhelSutra alpha.",
  "site.join.note": "We never publish your footage; footage involving minors is never used to improve the tool. See our <a href=\"\"/privacy\">Privacy Policy</a>.",
  "site.join.done": "Thanks ? we've got it. We'll be in touch at the email you gave. ?<br><span style=\"font-weight:400;color:var(--mut)\">While you're here: see the tool in action, and a real 30-second reel it made.</span>"
}
```

REFERENCE ? already-shipped Indonesian (Bahasa Indonesia) strings from the SAME product (reuse the register + the exact wording of the form's existing questions so the whole form reads as one voice):

```
{
  "app_title": "Pilih reli untuk reel kamu",
```

```

"grid_rally": "Reli {n}",
"lang_label": "Bahasa",
"site_nav": {
  "how": "Cara kerjanya",
  "why": "Mengapa ini sulit",
  "ownModel": "Miliki modelmu sendiri",
  "flyer": "Flyer",
  "roadmap": "Roadmap",
  "faq": "FAQ",
  "requestAccess": "Minta akses"
},
"site_hero_eyebrow": "Alfa khusus undangan · Bengaluru",
"join_gpuLabel": "Apakah kamu punya komputer yang cukup bertenaga untuk memproses video sendiri?",
"join_gpuYes": "Ya ? PC atau laptop gaming dengan kartu grafis"
}

```

This is a NON-technical Request-Access form (the visible labels, options, submit button, and the post-submit messages). Warm, plain, reassuring; match the product's existing app/site register (see REFERENCE).

KEEP THESE EXACTLY ? never translate or transliterate:

- Brand/URLs: KhelSutra, khelsutra.guru.
- Storage PRODUCT names, verbatim: "Google Drive", "OneDrive / Microsoft 365", "Dropbox" (these three keys return unchanged).
- Symbols/emoji kept: ? ? · ? ?
- "Privacy Policy" is a LINK label ? translate its words naturally for the locale (it is NOT a brand).
- "Sending?" is the button's in-flight state ? DO translate it (keep the trailing ? ellipsis).

Some values contain inline HTML ? preserve every tag EXACTLY (same tag, same attributes, same order),

translating ONLY the human-readable text between tags:

- site.join.teaser: ? ? (keep the span + ?)
- site.join.note: ? Privacy Policy. (keep the exactly; translate the link text)
- site.join.done: ??
? (keep
 and the styled exactly)

All OTHER keys are PLAIN text ? do not add any HTML to them.

Output {"translations": { "<dotted key>": "<value>", ... }} covering ALL 26 keys, nothing else.

2. assistant (2026-06-22T16:18:26.208Z)

I'll localize all 26 keys into Bahasa Indonesia, matching the product's existing register. Let me check the reference strings and existing form wording first.

3. user (2026-06-22T16:18:35.477Z)

Structured output provided successfully

4. assistant (2026-06-22T16:18:44.874Z)

All 26 keys have been localized into Bahasa Indonesia and returned via StructuredOutput.

Key decisions for a warm, non-technical, single-voice form:

- **Register & pronouns:** Used the informal "kamu/saya" register to match the shipped reference strings (e.g. `join\_gpuLabel` uses "kamu punya komputer"). "saya" is used in first-person UI labels (segLabel, consent) consistent with that voice.
- **Reused exact wording:** "alfa", "reel", "tool" (kept untranslated as in the product), and the invite-only framing echo "Alfa khusus undangan · Bengaluru" from the hero.
- **Preserved verbatim:** Brand `KhelSutra`; storage products `Google Drive` / `OneDrive / Microsoft 365` / `Dropbox` returned unchanged; symbols ? ? · ? ? kept.
- **HTML integrity:** `teaser` keeps `<span aria-hidden="true">?</span>`; `note` keeps `?` with only the link text translated ("Kebijakan Privasi"); `done` keeps
`?<br><span style="font-weight:400;color:var(--mut)">?</span>` exactly.

- **In-flight button:** "Sending?" ? "Mengirim?" with the trailing ellipsis preserved.
- **"courts" ? "lapangan":** the standard badminton-context term, kept consistent across
courtsLabel/courts1/courts2to4/courts5plus.
