}
```

FINDINGS:

```
[
  {
    "key": "site.footer.tagline",
    "severity": "medium",
    "problem": "Uses \"badminton\" for the sport, but the app-console reference consistently
translates the sport as \"bulu tangkis\" (e.g. result.shareText, site.reveal.shareText,
record.settings.body, capture.step2.b2, faq.q6.a). \"badminton\" here is an inconsistent calque
against the established native term and reads as a foreign borrowing where the rest of the app
says \"bulu tangkis\".",
    "suggestion": "Sorotan bulu tangkis otomatis · Bengaluru, India",
    "lens": "fluency"
  },
  {
    "key": "site.footer.tagline",
    "severity": "low",
    "problem": "Renders \"highlights\" as the English borrowing \"Highlight\". For the
reel/highlights noun the reference uses \"sorotan\" in user-facing contexts (result.shareText
\"reel sorotan\", hero.lead, hero.demo.resultTitle \"Reel sorotan\", ask.a3 \"sorotan 8-clip\").
\"Highlight\" appears untranslated only inside two record/capture intro sentences, not as the
standalone product noun, so \"sorotan\" is the more consistent and natural choice here.",
    "suggestion": "Use \"Sorotan\" instead of \"Highlight\": \"Sorotan bulu tangkis otomatis ·
Bengaluru, India\".",
    "lens": "fluency"
  }
]
```

KEEP THESE EXACTLY ? never translate or transliterate:

- Brand/URLs: KhelSutra, khelsutra.guru, and the verbatim watermark "Generated by Khelsutra.guru". HTTPS stays HTTPS.
- Product names (storage providers, verbatim): "Google Drive", "OneDrive / Microsoft 365", "Dropbox", "Amazon S3", "Google Cloud". "SD card" keeps "SD".
- Place: Bengaluru stays "Bengaluru" (the country name "India" may take its natural local form).
- Symbols/emoji kept as-is: · © ? ?. The year "© 2026" stays literal.
- This is a NON-technical Request-Access form (already de-jargoned in English: "a powerful computer" instead of "GPU", "run it in the cloud" instead of server-speak). Keep that warm, plain, reassuring register ? do NOT re-introduce jargon. There is NO HTML markup in these strings (plain text only) ? do not add any tags.

Return {"translations": { "<dotted key>": "<final value>", ... }} with ALL 20 keys.

2. assistant (2026-06-22T16:00:37.609Z)

I'll apply the findings to the flagged keys and keep the clean keys unchanged. Let me verify the established terminology against the reference catalog before finalizing.

3. user (2026-06-22T16:00:38.280Z)

5. assistant (2026-06-22T16:00:41.641Z)

Let me read the Indonesian catalog to confirm the established terms ("bulu tangkis", "sorotan") used in the reference keys cited by the findings.

6. user (2026-06-22T16:00:43.008Z)

```
54:    "reelNamePlaceholder": "sorotan-saya",
64:    "shareText": "Saya membuat reel sorotan bulu tangkis dengan KhelSutra ? Coba:
khelsutra.guru",
115:    "shareText": "Coba KhelSutra ? ia mengubah satu pertandingan bulu tangkis penuh
menjadi reel sorotan yang rapi ? khelsutra.guru"
145:    "lead": "KhelSutra menemukan setiap reli dalam sesimu dan membuang pemanasan, momen
jalan-jalan antar-poin, dan waktu kosong ? sehingga satu pertandingan penuh menjadi reel sorotan
rapi yang bisa kamu tonton dan unduh. Tanpa mengedit, tanpa menggeser-geser.",
159:    "resultTitle": "Reel sorotan · 44 reli · 18 min",
166:    "intro": "Kualitas highlight dimulai dari rekamannya. Atur kamera sekali seperti ini
dan KhelSutra sudah punya semua yang diperlukannya untuk menemukan reli.",
175:    "body": "<b>1080p</b>, lanskap, <b>30 fps</b> untuk bulu tangkis (60 fps untuk
tenis meja). <b>Audio ON</b> ? suara ?thwack? shuttlecock membantu menemukan reli."
196:    "intro": "Highlight hebat dimulai dari rekaman lapangan penuh yang stabil. Lima menit
persiapan membuat perbedaan besar pada reel-mu.",
208:    "b2": "<b>30 fps</b> untuk bulu tangkis/pickleball; <b>60 fps</b> untuk tenis
meja.",
248:[Omitted long matching line]
362:    "a3": "sorotan 8-clip dari sesi terbaru",
425:    "a": "Bulu tangkis hari ini. Tenis meja dan cabang olahraga raket lainnya ada dalam
roadmap."
```

7. assistant (2026-06-22T16:00:47.542Z)

The findings are confirmed by the reference catalog. The app consistently uses "bulu tangkis" for the sport and "sorotan" for the highlights/reel product noun. "Highlight" only appears in record/capture intro sentences, not as the standalone product noun.

Now I'll apply the fixes:

- `site.footer.tagline` (both findings): change "Highlight badminton otomatis" to "Sorotan bulu tangkis otomatis"
- All other 19 keys: unchanged (clean), with KEEP-literal rules preserved (brand/URLs, product names, Bengaluru, symbols, watermark verbatim).

8. user (2026-06-22T16:00:54.914Z)

Structured output provided successfully

9. assistant (2026-06-22T16:00:59.773Z)

Applied the fixes. Both `site.footer.tagline` findings resolved by changing "Highlight badminton otomatis" to "Sorotan bulu tangkis otomatis", aligning with the established native terms in the reference catalog (`C:\Users\avidu\Projects\khelsutra\locales\id\common.json`): "bulu tangkis" for the sport (lines 64, 175, 208, 425) and "sorotan" for the highlights/reel product noun (lines 64, 145, 159, 362). All other 19 keys left unchanged. Keep-literal rules preserved: brand "KhelSutra", verbatim watermark "Generated by Khelsutra.guru", HTTPS, product names ("Google

Drive", "OneDrive / Microsoft 365", "Dropbox", "Amazon S3", "Google Cloud"), "SD", "Bengaluru",
and symbols/emoji (. @ ? , "© 2026").
