This is a printable ACADEMY FLYER (badminton). Punchy, warm, concise ? it's marketing for coaches/players.

KEEP verbatim: KhelSutra, khelsutra.guru, khelsutra.guru/capture, hello@khelsutra.guru, WhatsApp, Instagram, 1080p, "60%", the watermark "Generated by Khelsutra.guru". Keep symbols ? ? ? . and emoji.

Bengaluru/India: use the locale's established spelling (es/da/id keep them in Latin). Sport names may take their natural local form (e.g. es "bádminton").

REUSE the REFERENCE wording for the overlapping lines ? esp. the hero lead, the golden rule, the essentials (place/settings/audio), the consent + watermark sentences (flyer "priv" ? consent + watermark), and the "rally"/"reel" /"footage"/"court" terms ? so the flyer matches the website voice.

Preserve inline HTML EXACTLY (tags + attributes incl. the khelsutra.guru/capture href), translating only the human text: keys with markup are h1 (), lead/qrSmall (&);, spotP/golden/ess1?4 (), more (<a href>).

All other keys are plain text ? add no HTML. "&" stays "&" (it's HTML source).

Return {"issues":[{"key,severity,problem,suggestion}]}; empty if clean.

I'll review the Danish draft against the source and the stated constraints. Let me check each key carefully.

Looking at the inline HTML preservation, plain-key cleanliness, no stray English, no raw keys, and the verbatim-keep terms.

The review is complete. I evaluated the Danish draft against the source and all stated constraints.

Summary of findings (3 low-severity items, no high or medium):

- **Inline HTML ? clean.** All markup is preserved exactly: `h1` keeps `- **Verbatim-keep terms ? clean.** KhelSutra, WhatsApp, Instagram, 1080p, the `khelsutra.guru/capture` URL, the `?` and `.` symbols, and the "Generated by Khelsutra.guru" watermark are all retained. (The `60%` / `?` / `?` / emoji tokens don't appear in this source, so nothing to check there.)
- **No raw keys, no stray English prose.** The only English is the intentional language-label list (English, ?????, ?????) in `figcaption`.
- **Voice reuse ? good.** "duel/dueller" (rally), "reel", "bane" (court), the golden-rule line, the essentials, and the consent+watermark sentence all match the website register.

The three flagged items are minor phrasing notes only (eyebrow comma/word-order, a figcaption confirmation, and a reel-term consistency confirmation) ? none block the draft. It is effectively clean.

The structured output has been returned via the StructuredOutput tool.
