Las grabaciones que involucran a menores nunca se usan para mejorar la herramienta y nunca se publican. Los reels llevan una marca ?Generated by KheIsutra.guru?."}  
This is a printable ACADEMY FLYER (badminton). Punchy, warm, concise ? it's marketing for coaches/players.  
KEEP verbatim: KheIsutra, kheIsutra.guru, kheIsutra.guru/capture, hello@kheIsutra.guru, WhatsApp, Instagram, 1080p, "60%", the watermark "Generated by KheIsutra.guru". Keep symbols ? ? ? . and emoji.  
Bengaluru/India: use the locale's established spelling (es/da/id keep them in Latin). Sport names may take their natural local form (e.g. es "bádminton").  
REUSE the REFERENCE wording for the overlapping lines ? esp. the hero lead, the golden rule, the essentials (place/settings/audio), the consent + watermark sentences (flyer "priv" ? consent + watermark), and the "rally"/"reel" /"footage"/"court" terms ? so the flyer matches the website voice.  
Preserve inline HTML EXACTLY (tags + attributes incl. the kheIsutra.guru/capture href), translating only the human text: keys with markup are h1 (<span class="hl">), lead/qrSmall (&), spotP/golden/ess1?4 (<b>), more (<a href>).  
All other keys are plain text ? add no HTML. "&" stays "&" (it's HTML source).  
Return {"issues":[{"key,severity,problem,suggestion}]}; empty if clean.

## 2. assistant (2026-06-22T17:51:50.880Z)

I'll review this Spanish flyer translation against the source, focusing on my assigned lens: inline HTML preservation, capture href, verbatim brand/keep terms, plain keys carrying no HTML, no stray English, and no raw keys.

Let me work through each key systematically.

**\*\*HTML-bearing keys:\*\***

- `h1`: `<span class="hl">el tiempo muerto fuera.</span>` ? tag/attr preserved, period inside span matches source. Good.
- `lead`: `WhatsApp & Instagram` ? `&` preserved verbatim. Good.
- `qrSmall`: `<br>&` ? both preserved. Good.
- `spotP`, `golden`, `ess1` `ess4`: `<b>` tags intact. Good.
- `more`: `<a href="https://kheIsutra.guru/capture">kheIsutra.guru/capture</a>` ? href and visible text both correct. Good.

**\*\*Plain keys (must carry NO HTML):\*\*** eyebrow, metaDesc, figcaption, spotEm, trackKept, trackGaps, chips, guideK, guideH2, ctaPill, ctaH2, ctaP, priv, title ? all plain, no stray tags. Good.

**\*\*Keep-verbatim terms:\*\*** KheIsutra, kheIsutra.guru/capture, WhatsApp, Instagram, 1080p, watermark "Generated by KheIsutra.guru" (in `priv`), Bengaluru, ? ? ? . emoji ? all present and correct.

**\*\*Stray English check:\*\*** This is the critical finding. The brief says "no stray English" ? but note `figcaption` deliberately lists language names (inglés/????/?????) which is intentional content, not stray English.

Let me flag the genuine issues.

### 3. user (2026-06-22T17:51:57.326Z)

Structured output provided successfully

### 4. assistant (2026-06-22T17:52:05.902Z)

I've completed the review and returned my findings via StructuredOutput.

Summary: the translation is clean on all the critical lens checks ? inline HTML preserved exactly (h1's `` tags in spotP/golden/ess1?4, the `  
` in qrSmall), the `khelsutra.guru/capture` href and visible text intact in `more`, both `&` entities preserved verbatim (lead, qrSmall), all plain keys carrying no stray HTML, every keep-verbatim term present (KhelSutra, WhatsApp, Instagram, 1080p, the "Generated by Khelsutra.guru" watermark, Bengaluru), no raw keys, and no stray English (the language names inglés/????/???? in figcaption are intentional content).

I flagged two low-severity stylistic issues only: a minor vocabulary inconsistency in `ctaP` ("configuración" vs. the flyer's own "preparación" for setup) and a slightly stiff "puras" placement in `lead`. Neither is a blocker.
