1. user (2026-06-22T16:18:22.757Z)

You are a professional Hindi (?????) localizer for KhelSutra (badminton highlights, invite-only alpha, Bengaluru). Localize the Request-Access form for a NON-technical coach/parent ? warm, plain, trustworthy.

SOURCE ? English, keyed by dotted key (translate ALL 26):

```
{
  "site.join.sending": "Sending?",
  "site.join.title": "Get into the KhelSutra alpha",
  "site.join.intro": "Invite-only. Tell us a little about your setup ? it helps us get you the
best results, and shapes what we build next.",
  "site.join.teaser": "<span aria-hidden=\"true\">?</span> Sign up to watch the tool in action ?
and a 30-second sample reel it made ? the moment you're in.",
  "site.join.segLabel": "I'm a?",
  "site.join.segAcademy": "Coaching academy / club",
  "site.join.segIndividual": "Individual player",
  "site.join.name": "Name",
  "site.join.email": "Email",
  "site.join.emailHint": "(so we can reach you)",
  "site.join.city": "City",
  "site.join.optional": "(optional)",
  "site.join.orgName": "Academy / club name",
  "site.join.courtsLabel": "How many courts do you record?",
  "site.join.courtsSelect": "Select?",
  "site.join.courts1": "1 court",
  "site.join.courts2to4": "2?4 courts",
  "site.join.courts5plus": "5+ courts",
  "site.join.storageGdrive": "Google Drive",
  "site.join.storageOnedrive": "OneDrive / Microsoft 365",
  "site.join.storageDropbox": "Dropbox",
  "site.join.message": "Anything else?",
  "site.join.messageHint": "(how you record, what you'd want?)",
  "site.join.consent": "Okay to email me about the KhelSutra alpha.",
  "site.join.note": "We never publish your footage; footage involving minors is never used to
improve the tool. See our <a href=\"\"/privacy\">Privacy Policy</a>.",
  "site.join.done": "Thanks ? we've got it. We'll be in touch at the email you gave. ?<br><span
style=\"font-weight:400;color:var(--mut)\">While you're here: see the tool in action, and a real
30-second reel it made.</span>"
}
```

REFERENCE ? already-shipped Hindi (?????) strings from the SAME product (reuse the register + the exact wording of the form's existing questions so the whole form reads as one voice):

```
{
  "app_title": "???? ??? ?? ??? ?????? ?????",
```

This is a NON-technical Request-Access form (the visible labels, options, submit button, and the post-submit messages). Warm, plain, reassuring; match the product's existing app/site register (see REFERENCE).

- Brand/URLs: KhelSutra, khelsutra.guru.
- Storage PRODUCT names, verbatim: "Google Drive", "OneDrive / Microsoft 365", "Dropbox" (these three keys return unchanged).
- Symbols/emoji kept: ? ? . ? ?
- "Privacy Policy" is a LINK label ? translate its words naturally for the locale (it is NOT a brand).
- "Sending?" is the button's in-flight state ? DO translate it (keep the trailing ? ellipsis).

- site.join.teaser: `<span aria-hidden="true">?</span> ?` (keep the `span` + `?`)
- site.join.note: `? <a href="/privacy">Privacy Policy</a>.` (keep the `<a href="/privacy">` exactly; translate the link text)
- site.join.done: `??<br><span style="font-weight:400;color:var(--mut)">?</span>` (keep `<br>` and the styled `<span>` exactly)

Output {"translations": { "<dotted key>": "<value>", ... }} covering ALL 26 keys, nothing else.

I'll localize the Request-Access form into Hindi. Let me first check the reference strings and product context to match the existing voice.

No files found

This is a pure translation task. I have all the source strings, reference Hindi strings, and detailed rules in the prompt. The grep confirms these aren't in this repo as JSON files ? they're provided inline. I'll proceed with the translation directly.

Structured output provided successfully

6. assistant (2026-06-22T16:18:56.508Z)

Localized all 26 keys into warm, plain Hindi matching the product's shipped register (reused "????? ? ???? ??" voice, the "??? ???? ????/???" question phrasing from `join\_gpuLabel`, and "????"). Preserved every constraint:

- Brands kept verbatim: KhelSutra, and the three storage product names returned unchanged (Google Drive, OneDrive / Microsoft 365, Dropbox).
- Symbols/emoji preserved: ? ? ? ? and the 2?4 en-dash.
- Inline HTML preserved exactly ? the `- "Sending?" translated to "???? ? ? ? ?" with the trailing ellipsis; "Privacy Policy" rendered as "???????? ????".
