You are a professional Spanish (Español, neutral) localizer for KhelSutra (badminton highlights, invite-only alpha, Bengaluru). Localize the Request-Access form for a NON-technical coach/parent ? warm, plain, trustworthy.

SOURCE ? English, keyed by dotted key (translate ALL 26):

```
{
  "site.join.sending": "Sending?",
  "site.join.title": "Get into the KhelSutra alpha",
  "site.join.intro": "Invite-only. Tell us a little about your setup ? it helps us get you the
best results, and shapes what we build next.",
  "site.join.teaser": "<span aria-hidden=\"true\">?</span> Sign up to watch the tool in action ?
and a 30-second sample reel it made ? the moment you're in.",
  "site.join.segLabel": "I'm a?",
  "site.join.segAcademy": "Coaching academy / club",
  "site.join.segIndividual": "Individual player",
  "site.join.name": "Name",
  "site.join.email": "Email",
  "site.join.emailHint": "(so we can reach you)",
  "site.join.city": "City",
  "site.join.optional": "(optional)",
  "site.join.orgName": "Academy / club name",
  "site.join.courtsLabel": "How many courts do you record?",
  "site.join.courtsSelect": "Select?",
  "site.join.courts1": "1 court",
  "site.join.courts2to4": "2?4 courts",
  "site.join.courts5plus": "5+ courts",
  "site.join.storageGdrive": "Google Drive",
  "site.join.storageOnedrive": "OneDrive / Microsoft 365",
  "site.join.storageDropbox": "Dropbox",
  "site.join.message": "Anything else?",
  "site.join.messageHint": "(how you record, what you'd want?)",
  "site.join.consent": "Okay to email me about the KhelSutra alpha.",
  "site.join.note": "We never publish your footage; footage involving minors is never used to
improve the tool. See our <a href=\"/privacy\">Privacy Policy</a>.",
  "site.join.done": "Thanks ? we've got it. We'll be in touch at the email you gave. ?<br><span
style=\"font-weight:400;color:var(--mut)\">While you're here: see the tool in action, and a real
30-second reel it made.</span>"
}
```

REFERENCE ? already-shipped Spanish (Español, neutral) strings from the SAME product (reuse the register + the exact wording of the form's existing questions so the whole form reads as one voice):

```
{
```

```

"app_title": "Elige las jugadas para tu reel",
"grid_rally": "Jugada {n}",
"lang_label": "Idioma",
"site_nav": {
  "how": "Cómo funciona",
  "why": "Por qué es difícil",
  "ownModel": "Tu propio modelo",
  "flyer": "Folleto",
  "roadmap": "Hoja de ruta",
  "faq": "Preguntas frecuentes",
  "requestAccess": "Solicitar acceso"
},
"site_hero_eyebrow": "Alfa solo por invitación · Bengaluru",
"join_gpuLabel": "¿Tienes un ordenador potente que pueda procesar los videos por sí solo?",
"join_gpuYes": "Sí ? un PC o portátil para juegos con tarjeta gráfica"
}

```

This is a NON-technical Request-Access form (the visible labels, options, submit button, and the post-submit messages). Warm, plain, reassuring; match the product's existing app/site register (see REFERENCE).

KEEP THESE EXACTLY ? never translate or transliterate:

- Brand/URLs: KhelSutra, khelsutra.guru.
- Storage PRODUCT names, verbatim: "Google Drive", "OneDrive / Microsoft 365", "Dropbox" (these three keys return unchanged).
- Symbols/emoji kept: ? ? · ? ?
- "Privacy Policy" is a LINK label ? translate its words naturally for the locale (it is NOT a brand).
- "Sending?" is the button's in-flight state ? DO translate it (keep the trailing ? ellipsis).

Some values contain inline HTML ? preserve every tag EXACTLY (same tag, same attributes, same order),

translating ONLY the human-readable text between tags:

- site.join.teaser: ? ? (keep the span + ?)
- site.join.note: ? Privacy Policy. (keep the exactly; translate the link text)
- site.join.done: ??
? (keep
 and the styled exactly)

All OTHER keys are PLAIN text ? do not add any HTML to them.

Output {"translations": { "<dotted key>": "<value>", ... }} covering ALL 26 keys, nothing else.

2. assistant (2026-06-22T16:18:25.567Z)

I'll localize the Request-Access form. Let me first check the existing Spanish strings in the repo to match the established voice and conventions.

3. user (2026-06-22T16:18:26.233Z)

No files found

4. assistant (2026-06-22T16:18:30.086Z)

The form strings aren't in the repo yet (this is new content to localize). My grep confirms there's no existing `site.join.\*` file to conflict with. I have everything I need: the source, the reference Spanish strings for register/voice, and the constraints. Let me produce the localization.

5. user (2026-06-22T16:18:38.519Z)

Structured output provided successfully

6. assistant (2026-06-22T16:18:46.142Z)

Localized all 26 keys into neutral Spanish, matching the product's existing register (e.g.,

"canchas" for courts, "reel" kept as in the product domain, formal-but-warm tone consistent with the shipped REFERENCE strings using "tú" address).

Key decisions:

- Kept verbatim: KhelSutra, Google Drive, OneDrive / Microsoft 365, Dropbox, and all symbols/emoji (? ? ? ?).
- "Sending?" ? "Enviando?" (translated, ellipsis preserved).
- "Privacy Policy" link label ? "Política de Privacidad" (translated text, `[- HTML preserved exactly in `teaser` \(span + ?\), `note` \(anchor\), and `done` \(`
` + styled span\).
- Address: informal "tú" throughout \(contactarte, diste, estás aquí\), matching the warm coach/parent tone and the reference strings' "¿Tienes??".](/privacy)
