Translate this KhelSutra "how to trim your video" upload-help into Spanish (es). Locale notes: Latin-American-neutral, friendly. "clip"/"video"/"Google Drive" as-is.

FINALIZED ENGLISH SOURCE:

```
{
  "message": "This clip is {size}, just over the {cap} upload limit, so trim it to your best
rally or two and upload that shorter version.",
  "summary": "No worries, trimming takes about a minute, here's how.",
  "phone": "<b>On a phone:</b> open the clip in your Photos or Gallery app, drag the two handles
at the ends of the video to keep just the rally you want, then save and upload that shorter
clip.",
  "computer": "<b>On a computer:</b> open the clip in the Photos app on Windows or QuickTime
Player on Mac, drag the ends inward to keep only the part you want, then save the shorter clip
and upload it.",
  "advanced": "<b>Advanced:</b> if you'd rather keep the full match, whoever runs the setup can
split it into smaller parts with scripts/chunk_video.py, or upload the whole video to Google
Drive instead."
}
```

HARD CONSTRAINTS (a linter enforces these ? violating any FAILS the build):

- Audience: a non-technical BADMINTON COACH who may never have trimmed a video. Warm, plain, actionable. No dev jargon in the coach-facing lines.
- The app runs AIR-GAPPED: NO URLs / links / "search for X online". Only inline instructions and plain tool NAMES.
- Accuracy: only recommend trimming methods that genuinely EXIST and are EASY for a beginner:
 - * Phones: iOS Photos and Android Photos/Gallery both trim video natively ? correct.
 - * Windows: the built-in Photos app trims video ? correct. Mac: QuickTime Player (Edit > Trim) ? correct.
 - * Do NOT recommend VLC for trimming (it has no beginner-friendly trim/export). Do NOT invent features.
- The 'message' string MUST keep EXACTLY the two placeholders {size} and {cap} (verbatim, curly braces), and NO other {braces}. The help strings (summary/phone/computer/advanced) must contain NO {placeholders}.
- HTML: phone/computer/advanced may use ? ONLY (a bold lead-in label). No other tags. NEVER use <code>, <kbd>, <samp>, <tt>, <var>. summary/message use no tags.
- 'advanced' MUST mention scripts/chunk_video.py (plain text, not <code>) and the Google Drive option ? that reference is a required deliverable.
- Keep product/app names verbatim: Photos, Gallery, QuickTime Player, VLC (avoid), Google Drive, scripts/chunk_video.py, Windows, Mac.
- Keep every string to one sentence, concise.

Extra rules for THIS translation:

- 'message' MUST contain exactly {size} and {cap} (verbatim), placed naturally in Spanish word order.
- Keep the ? lead-in tags in phone/computer/advanced; translate the text INSIDE and around them.
- Keep verbatim: Photos, Gallery, QuickTime Player, Google Drive (or its catalog form), Windows, Mac, scripts/chunk_video.py.
- ICU pitfall: never put a straight apostrophe ' immediately before a { or other special char; if you need an apostrophe use ? (curly) or rephrase.

Return all five translated strings + a self_check paragraph confirming you satisfied every rule (placeholders, no banned jargon, no <code>, apostrophe-safe, brand handling).

2. assistant (2026-07-04T01:51:22.013Z)

I'll translate the KhelSutra video-trimming help into Latin-American-neutral Spanish, following all the constraints. Let me work through each string carefully.

3. assistant (2026-07-04T01:51:36.243Z)

Este clip pesa {size}, apenas por encima del límite de subida de {cap}, así que recórtalo a tu mejor jugada o dos y sube esa versión más corta.
